

Lakeland Resources Inc. Enters Into Option Agreement on Fond Du Lac Uranium Property

30.12.2014 | [CNW](#)

VANCOUVER, Dec. 30, 2014 /CNW/ - [Lakeland Resources Inc.](#) (TSXv: LK; FSE: 6LL; OTCQX: LRESF) (the "Company") is pleased to announce that it has entered into an option agreement with [Takara Resources Inc.](#) ("Takara") where Takara can acquire a 50% interest, subject to TSX Venture Exchange ("Exchange") acceptance, in the Fond du Lac Property (the "Property"), located in the northern Athabasca Basin region, Saskatchewan. The Property consists of one mineral claim, and is 2,827 hectares in size.

The property is situated at the margin of the Athabasca Basin where the depth to the unconformity is relatively shallow. The historic and recent exploration has identified the presence of an optimal geological setting for the formation of unconformity-style mineralization. Historic exploration was conducted in the 1976 to 1984 era by a Saskatchewan Mining and Development Corporation (SMDC) and Urangesellschaft Canada Ltd. Exploration consisted of regional airborne and geochemical surveys, followed by detailed ground EM, magnetic and gravity surveys and drilling of one hole in 1984.

Takara has the right to earn a 50% interest in the Property by issuing 1,500,000 common shares to Lakeland on the closing date of the transaction and by spending \$100,000 on exploration on the property and by issuing an additional 250,000 shares by June 1, 2015. The property is subject to a 1.5% NSR to the original vendor. The purchase option agreement is subject to Exchange approval.

NI 43-101 Disclosure

The technical information above has been prepared in accordance with the Canadian regulatory requirements set out in National Instrument 43-101 and reviewed on behalf of the company by Neil McCallum, P.Geol., of Dahrouge Geological Consulting Ltd., a qualified person.

About Lakeland Resources Inc.

[Lakeland Resources Inc.](#) is a uranium and mineral exploration company focused on the Athabasca Basin in Saskatchewan, Canada, home to some of the world's largest and richest high-grade uranium deposits. The Company is well funded to carry out its near term exploration programs.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Statements in this document which are not purely historical are forward-looking statements, including any statements regarding beliefs, plans, expectations or intentions regarding the future. Forward looking statements in this news release for example include the proposed use of proceeds; incurring of qualified exploration expenditures and any references to future drilling or exploration programs.

It is important to note that actual outcomes and the Company's actual results could differ materially from those in such forward-looking statements. Risks and uncertainties include economic, competitive,

governmental, environmental and technological factors that may affect the Company's operations, markets, products and prices. Factors that could cause actual results to differ materially may include misinterpretation of data; that we may not be able to get equipment or labour as we need it; that we may not be able to raise sufficient funds to complete our intended exploration and development; that our applications to drill may be denied; that weather, logistical problems or hazards may prevent us from exploration; that equipment may not work as well as expected; that analysis of data may not be possible accurately and at depth; that results which we or others have found in any particular location are not necessarily indicative of larger areas of our properties; that we may not complete environmental programs in a timely manner or at all; that market prices may not justify commercial production costs; and that despite encouraging data there may be no commercially exploitable mineralization on our properties.

NOT FOR DISTRIBUTION TO U.S. NEWSWIRE SERVICES OR FOR RELEASE, PUBLICATION, DISTRIBUTION OR DISSEMINATION DIRECTLY, OR INDIRECTLY, IN WHOLE OR IN PART, IN OR INTO THE UNITED STATES.
