

Lomiko Starts Branding Awareness Campaign With Feature on CEO-Clips for US Audiences to Introduce Graphene Strategy

09.01.2015 | [Marketwired](#)

VANCOUVER, BRITISH COLUMBIA and NEW YORK, NEW YORK--(Marketwired - Jan 9, 2015) - **Lomiko Metals Inc. ("Lomiko")** (TSX VENTURE:LMR)(OTCQX:LMRMF)(FRANKFURT:DH8B) will be featured on CEO Clips, which profiles some of the most innovative publicly traded companies in North America and will feature a :15 to :30 second clip about Lomiko Metals on Bloomberg Television beginning January 12, 2015. The clip can also be viewed online via at www.lomiko.com. Bloomberg Television is a 24-hour news cable television channel in the United States and Canada which reaches 67 million viewers and is #1 for Top Management, Investors and Financial Advisors.

The New Yorker Magazine featured Graphene with one of the most comprehensive articles on the material. Written by John Colapinto, the **December 22, 2014** article discusses the history, properties, applications and implications of the material.

On January 5, 2015 Lomiko announced a summary of its activity in 2014 and 2015 plans to spin-off two new technology companies after the successful launch of Graphene 3D Lab. 100% owned Lomiko Technologies will focus on the sale and distribution of electronic devices through a new e-commerce site and Graphene Energy Storage Devices (Graphene ESD) will work on the development of a Graphene Supercapacitor.

"As reported December 4, 2013, the Phase I Graphene Supercapacitor project yielded encouraging results. Graphene ESD Corp. will build on the success of this project and will be developing a graphene-based supercapacitor. The device is designed as a versatile energy storage solution for electronics, electric vehicles and electric grid," stated A. Paul Gill, CEO of [Lomiko Metals Inc.](#) "Graphene is finding new application in sensors, electronics, and advanced materials. Energy storage is a rapidly developing field which can benefit from the outstanding properties of graphene. We believe that graphene-based devices will deliver the best value for multiple energy storage applications."

On Behalf of the Board

A. Paul Gill, Chief Executive Officer
