Dynasty will provide a more detailed analysis in its management discussion and analysis and financial statements for the year ended December 31, 2014, which will be released on or before March 31, 2015.

Robert Washer, the Company's President and Chief Executive Officer, commented "Fiscal Year 2014 was the first full year of commercial production at the Zaruma Gold Project and during this time the majority of production was mined from the Soroche group of veins with the processing plant operating at less than half its current capacity. The Company intends to continue to develop the mine to gain access to additional veins and increase the throughput and ounces produced at the processing plant in the coming year."
