Montreal, Quebec / TheNewswire / [Uragold Bay Resources Inc.](#) ("Uragold") (TSX Venture: UBR), is pleased to announce that a major silicon metal producer ("The Producer") has confirmed their interest in purchasing a significant tonnage of High Purity Quartz from our Roncevaux property in Quebec. The Producer and Uragold are now proceeding with confidential discussions with the goal of signing a mutually beneficial commercial agreement.

## SUCCESSFUL PRODUCER TESTING CONFIRMS QUARTZ PURITY

The Producer confirmed that the Quartz material from our Roncevaux property successfully passed their rigorous testing protocol, which determined that the material is highly suited for their silicon metal production plant. Uragold cannot provide any further specifics of the test results, as both the test methodology that measures the impurities in the Silica (Quartz) in PPT (parts per trillion), as well as, the thermal shock results, are proprietary to The Producer.
