

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Apr 16, 2015) - [China Minerals Mining Corp.](#) ("China Minerals" or the "Company") (TSX VENTURE:CMV)(PINKSHEETS:HWTHF) announces that, as a result of a technical disclosure review by the British Columbia Securities Commission (the "BCSC"), the Company issues this news release to state that the 2010 filed technical report is not in compliance with the requirements of NI 43-101 as one of the co-authors is not independent within the meaning of NI 43-101. As such, the resource estimates on its Cassiar Gold project are not supported by the compliant NI 43-101 technical report, contrary to NI 43-101, and that the resource estimates should not be relied on until they have been verified and supported by a revised technical report.

The Company has removed both the corporate presentation and the fact sheet from its website and will not re-post on its website until all disclosure contained therein meet the requirements of NI 43-101.
