

BELO HORIZONTE, BRAZIL--(Marketwired - Apr 20, 2015) - [Brazil Minerals Inc.](#) (OTCBB: BMIX) (the "Company" or "BMIX") announced today that it had been featured in TCR, a well-regarded mining newsletter, with a price target for its common stock approximately eight times greater than the last closing price. TCR specializes in smaller capitalization companies in the minerals space, and is read by influential industry members. The Company does not have any affiliation with TCR, and was unaware that it would be featured.

Thom Calandra, the publisher of TCR, publicly disclosed on Friday, April 17, that he had bought an initial small position in the common stock of BMIX through open market trades. He has no affiliation of any type with the Company but had the opportunity to meet with BMIX's CEO in 2013 and 2014. Mr. Calandra has decades of investment experience in mining companies.

The current management of the Company, in place since December 2012, has never sold a single share of their BMIX stock. The Company's CEO, Head of Brazilian Operations, Chief Mining Officer, and General Counsel, all receive partial compensation in the form of restricted BMIX stock in lieu of cash payments.

About Brazil Minerals, Inc.

[Brazil Minerals Inc.](#) (OTCBB: BMIX) is a U.S. publicly-traded company with current revenues from sales of rough and polished diamonds, gold, and sand. Our intention is to continue to grow and become a premier diversified and profitable company focused on Brazil. We believe that our team is our main strength. Our team combines over 100 years of Brazilian business expertise and American experience in finance, private equity and venture capital.

BMIX owns 100% of MDB, a Brazilian producer and seller of polished and rough diamonds, gold bars, and industrial-use sand. MDB operates a fully-operational mining concession with the largest alluvial processing plant for diamonds and gold in Latin America, and has the Brazilian permit to export its production.

BMIX also owns 50% of RST Recursos Minerais, Ltda. ("RST"), a Brazilian company with 10 mining concessions and 12 other mineral rights for diamond and gold. A number of the RST areas are located near MDB's plant, in the Jequitinhonha River valley, a well-known area for diamonds and gold for over two centuries.

Our goal is to become an attractive and liquid alternative for investment in Brazil, the 6th largest global economy. More information on BMIX can be found at www.brazil-minerals.com.

Safe Harbor Statement

This press release contains forward-looking statements made under the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. Forward looking statements are based upon the current plans, estimates and projections of [Brazil Minerals Inc.](#)'s management and are subject to risks and uncertainties, which could cause actual results to differ from the forward looking statements. Such statements include, among others, those concerning market and industry segment growth and demand and acceptance of new and existing products; any projections of production, reserves, sales, earnings, revenue, margins or other financial items; any statements of the plans, strategies and objectives of management for future operations; any statements regarding future economic conditions or performance; uncertainties related to conducting business in Brazil, as well as all assumptions, expectations, predictions, intentions or beliefs about future events. Therefore, you should not place undue reliance on these forward-looking statements. The following factors, among others, could cause actual results to differ from those set forth in the forward-looking statements: business conditions in Brazil, general economic conditions, geopolitical events and regulatory changes, availability of capital, BMIX's ability to maintain its competitive position and dependence on key management. This press release does not constitute an offer to sell or the solicitation of an offer to buy any security and shall not constitute an offer, solicitation or sale of any securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of such jurisdiction.

Cautionary note regarding estimates of Indicated and Inferred Mineral Resources of Diamonds and Gold as found in MDB's NI 43-101 Technical Reports.

We advise U.S. investors that while these terms and amounts are recognized by Canadian regulations, the U.S. Securities and Exchange Commission ("SEC") does not recognize them. U.S. investors are cautioned not to assume that any part or all of the mineral deposits in these categories will ever be converted into mineral reserves as defined by the U.S.'s Industry Guide 7.

Cautionary note regarding estimates of Mineral Reserves of Diamonds and Gold as found in MDB's Bankable Feasibility Study.

We advise U.S. investors that while these terms and amounts are recognized by Brazilian regulations, the SEC does not recognize them. U.S. investors are cautioned not to assume that any part or all of the mineral deposits in this category will ever be converted into mineral reserves as defined by the U.S.'s Industry Guide 7.

Cautionary note regarding estimates of Volume and Weight of Sand as found in MDB's studies filed with the local Brazilian regulatory agencies.

We advise U.S. investors that while sand volume and weight terms and amounts as filed in Brazil are recognized by Brazilian regulations, the SEC does not recognize them. U.S. investors are cautioned not to assume that any part of such are not considered mineral reserves as defined by the U.S.'s Industry Guide 7.
