

MONTREAL, CANADA--(Marketwired - Apr 20, 2015) - [Amex Exploration Inc.](#) (TSX VENTURE:AMX) announces the acquisition of three properties that consist of 79 claims totalling 4,227 hectares by way of map staking in the Eeyou Istchee Territory, James Bay, Québec.

The 3 new properties will be referred as:

Lac Indicateur 24 claims 1,279 hectares  
Eastmain Centre 40 claims 2,160 hectares  
Eastmain North 15 claims 788 hectares

All these properties are located approximately 300 km north of the town of Chibougamau, Quebec. The whole area is part of Quebec's Government "Plan Nord" and is readily accessible from Chibougamau by the new 243-kilometer-long all-season road to Stornoway's Renard diamond mine (route 167 extension).

Jacques Trottier, Amex's President states: "We are quite pleased to have been able to stake these new claims in an area which until very recently had no easy access, and consequently, underexplored. In fact, this region is now subject to new extensive exploration work done by other junior exploration companies, some with impressive results!. We are anxious to start our own exploration program that should be elaborated and implemented in the next coming months!"

[Amex Exploration Inc.](#) is a junior mining exploration company listed on the TSX Venture Exchange whose primary objective is to develop and bring into production viable gold and base metal deposits.
