

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Apr 21, 2015) - [Hemisphere Energy Corp.](#) ("Hemisphere" or the "Company") (TSX VENTURE:HME) announces that it has decided to restate certain financial information for the year ended December 31, 2013 (the "2013 Restatement").

The material changes to be included in the 2013 Restatement will affect the Company's impairment, depletion, and decommissioning costs and will have a positive impact, significantly reducing the Company's loss in December 2013 by \$3.3 million from \$3.8 million to \$0.5 million.

As a result of the adjustment of impairment and depletion costs due to the effects of International Financial Reporting Standards and a change in accounting policy applied retrospectively, Hemisphere's petroleum and natural gas interests increased by \$4.0 million. In addition, Hemisphere has incorporated the Alberta Energy Regulator updated decommissioning directive, which resulted in an increase in decommissioning liability of \$0.7 million. The 2013 Restatement affects only non-cash items and therefore has no impact on cash flow.

The decision to restate followed an audit review and the impact will be confirmed during the finalization of the Company's 2014 audited annual financial statements. The 2013 Restatement will be released in conjunction with the upcoming filing of the Company's audited annual financial statements for the year ended December 31, 2014 which the Company plans to file on April 22, 2015.
