

Lakeland Resources Inc. Adds Jody Dahrouge to Board of Directors

23.04.2015 | [CNW](#)

VANCOUVER, April 23, 2015 /CNW/ - [Lakeland Resources Inc.](#) (TSXV: LK) (FSE: 6LL) (OTCQX: LRESF) (the "Company" or "Lakeland") is pleased to report that Jody Dahrouge has been appointed as a director of the corporation.

Mr. Dahrouge is a professional geologist with 25 years of experience in Canada and internationally, and has a successful background in uranium exploration and project generation within the Athabasca Basin.

Since 1998, Mr. Dahrouge has been the president of Dahrouge Geological Consulting Ltd., a geological services company that provides consulting services to a broad range of public and private exploration and mining companies. He is a professional geologist (Alberta) and holds Bachelor of Science degrees in geology and computing science, both from the University of Alberta.

Until September 2007, Mr. Dahrouge was President and COO of Fission Energy Corp. ("Fission"), and played a key role in the acquisition of several of Fission's key exploration properties, including Waterbury Lake, Patterson Lake and Patterson Lake South ("PLS"). Two very significant uranium occurrences were eventually discovered at those projects, including the J-Zone at Waterbury Lake, and the Triple R uranium deposit at PLS.

"We are very pleased to have Mr. Dahrouge as part of the Lakeland team," stated Jonathan Armes, President and CEO. "He brings a wealth of knowledge and experience to the board. We look forward to Jody's contributions and leadership as we continue to establish ourselves as a significant presence in the Athabasca Basin."

About Lakeland Resources Inc.

[Lakeland Resources Inc.](#) is a uranium and mineral exploration company focused on the Athabasca Basin in Saskatchewan, Canada; home to some of the world's largest and richest high-grade uranium deposits. The Company is well funded to carry out its near term exploration programs.

On Behalf of the Board of Directors Lakeland Resources Inc.

Statements in this document which are not purely historical are forward-looking statements, including any statements regarding beliefs, plans, expectations or intentions regarding the future.

It is important to note that actual outcomes and the Company's actual results could differ materially from those in such forward-looking statements. Risks and uncertainties include economic, competitive, governmental, environmental and technological factors that may affect the Company's operations, markets, products and prices. Factors that could cause actual results to differ materially may include misinterpretation of data; that we may not be able to get equipment or labour as we need it; that we may not be able to raise sufficient funds to complete our intended exploration and development; that our applications to drill may be denied; that weather, logistical problems or hazards may prevent us from exploration; that equipment may

not work as well as expected; that analysis of data may not be possible accurately and at depth; that results which we or others have found in any particular location are not necessarily indicative of larger areas of our properties; that we may not complete environmental programs in a timely manner or at all; that market prices may not justify commercial production costs; and that despite encouraging data there may be no commercially exploitable mineralization on our properties.
