

Vancouver, BC / TheNewswire / April 24 2015 - [Dajin Resources Corp.](#) ("Dajin") (TSX-V: DJI) (OTC: DJIFF) is pleased to announce the appointment of Mark King, PhD, PGeo, FGC to Dajin's Advisory Board.

Dr. King is a hydrogeologist educated in both the earth sciences and engineering. He received his PhD from the University of Waterloo where he studied transport of contaminants in groundwater. He also holds an MASc from the Technical University of Nova Scotia. He is President of Groundwater Insight Inc.

Mark is one of the few hydrogeologists in North America with experience in the field of Lithium brine deposits and has conducted precedent-setting analysis in this emerging industry. Dr. King has worked in academic research and was a Senior Project Manager in the largest environmental consulting firm in Atlantic Canada. Since establishing Groundwater Insight Inc. he has provided expert technical services on more than 100 projects in the Americas.

Recently, he provided expertise as the independent Qualified Professional (QP) geoscientist for three successive phases of Resources and Reserve Estimation at a Lithium brine deposit in the high Andes of South America as well as serving as the QP on other important Lithium brine projects.

About Dajin: ([www.dajin.ca](http://www.dajin.ca))

Dajin is an early stage energy metals exploration company holding a 100% interest in claims known to contain lithium and boron values in the Teels Marsh region of Mineral County and the Alkali Lake region of Esmeralda County in Nevada. Dajin also controls a 100% interest in a series of mineral concessions in Jujuy province, in Argentina.
