

TSXV: GGI
OTC: GGIFF
Frankfurt: RQM

VANCOUVER, June 5, 2015 /CNW/ - [Garibaldi Resources Corp.](#) (TSX.V: GGI) (the "Company" or "Garibaldi") is pleased to announce the acquisition of the Golden Bear claims comprising 14 sq. km adjacent to the southern border of the Company's B.C. flagship Grizzly Project in the Sheslay district.

These claims feature significant historic copper-gold showings including a massive sulphide bearing vein discovered by Chevron Minerals and North American Metals during construction of the Golden Bear mine road in 1988 (the road extends across the claims).

Garibaldi President and CEO Steve Regoci commented: "We've made this acquisition based on our growing understanding of the scale of the Grizzly system, not only west to east but north to south. What's intriguing about the Golden Bear claims is the historic high-grade Wolverine gold showing, the extensive gold and copper-in-soil anomalies, and the fact that this promising area has never been drill-tested. These claims are very complementary to our ongoing exploration program at the Grizzly and they've been acquired at an opportunistic time in the market cycle."

Under the terms of the arms-length agreement (dated May 11, 2015) for the Golden Bear claims, which expands the Grizzly to 286 sq. km, Garibaldi will issue 150,000 shares in exchange for a 100% interest subject only to a 2% NSR in favor of the vendor, half of which Garibaldi can buy back for \$1 million CDN.

About Garibaldi

[Garibaldi Resources Corp.](#) is an active Canadian-based junior exploration company focused on creating shareholder value through discoveries and strategic development of its assets in some of the most prolific mining regions in Mexico and British Columbia.
