## About Eagle Plains Resources

Based in Cranbrook, B.C., Eagle Plains continues to conduct research, acquire and explore mineral projects throughout western Canada. Since 1992, EPL has been acquiring and developing early-stage projects utilizing an in-house team of geologists, technicians and specialists. Considered a prolific project generator with over 40 properties, EPL invites joint-venture participation to expedite development, reduce risk and enhance exposure to discovery.

Current third-party agreements if maintained to completion will have exposed EPL to over \$28M in exploration expenditures, \$3.2M cash and 10M shares in partner companies. Completed agreements have yielded over \$27M in exploration spending, \$1.8M cash to EPL and a total of 22M shares of partner companies.

Expenditures from 2011-2013 on Eagle Plains-related projects were approximately \$15M, which was funded by Eagle Plains and for the most part, by third-party partners. This exploration work resulted in approximately 15,000m of diamond-drilling and extensive ground-based exploration work facilitating the advancement of more than 23 projects at various stages of development.
