

[USCorp](#) (OTCMarkets: USCS.PK) today announced San Diego Metal Detector and Gold Prospecting Supply is performing testing on [USCorp](#)'s Picacho-Salton gold claims in Southern California.

Some of the equipment to be used will include Ground Penetrating Radar, Pulse Induction Detection and X-Ray Florescence Analyzation.

Preliminary tests found large flakes and small nuggets averaging 89.67% gold, 8.12% silver, 1.23% iron and 0.98% lead on the first day using small scale mining equipment.

Robert Dultz, CEO of [USCorp](#), said that [USCorp](#)'s Twin Peaks Project in Arizona, may make a similar research arrangement within the next 90 days if results continue to look this promising. [www.uscorpgold.com](http://www.uscorpgold.com)

Robert Petersen of San Diego Metal Detector expects this research project will provide valuable data to [USCorp](#) regarding their California and Arizona claims for future development.

[USCorp](#) is an exploration stage company with gold and silver projects in Arizona and California. Information about USCorp can be found at the company's website: <http://uscorpgold.com>.

SAFE HARBOR STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995: The statements contained in this release which are not historical facts are forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those set forth in or implied by forward-looking statements. These risks and uncertainties include the Company's entry into new commercial businesses, the risk of obtaining financing, recruiting and retaining qualified personnel, and other risks described in the Company's Securities and Exchange Commission filings. The forward-looking statements in this press release speak only as of the date hereof, and the Company disclaims any obligation to provide updates, revisions or amendments to any forward-looking statement to reflect changes in the Company's expectations or future results.
