Note: (1) Block Caving/Mechanized Bulk Mining Cut-Off Grade (CoG) of 52 g/t AgEq or NSR \$30/t. See Table 2 for more details (2) AgEq: Silver Equivalent ounces based on 3-yr trailing average (ending in 2013) commodity prices of US\$1455/oz.Au; US\$28.10/oz.Ag; US\$1.00/lb Pb and US\$0.96/lb Zn applying estimated Mill and Smelter recoveries. Note that Zn and Pb are excluded from AgEq for oxide veins and Cu and Au are excluded from AgEq within Sulphide bodies. (3) Pb and Zn are excluded from oxide vein resources due to lack of metallurgical tests illustrating their potential recoveries. (4) Totals may not add up correctly due to rounding.

Cautionary Statement: Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability.

The Resource Study was undertaken by SGS Canada Inc - SGS Geostat Group ["SGS"] with Indicated Resources and Inferred Resources estimated and classified using CIM Standards and a block modeling interpolation with geo-statistical analysis. SGS recognizes that there are areas within the 23 modelled structures, and as extensions to these structures, which require additional drilling to meet the Resource criteria applied in their evaluation. These additional targets with further exploration drilling may provide additional tonnage of 20 to 50 million tonnes grading 100 to 150 g/t AgEQ. This stated range of quantity and grade is conceptual in nature and there has been insufficient exploration to define a mineral resource. It is uncertain if further exploration will result in these target areas being delineated as a mineral resource.

The San Diego Property is a 50-50 joint venture between Golden Tag and [Golden Minerals Company](http://www.goldminerals.com) (NYSE MKT:AUMN)(TSX:AUM). Golden Tag is the operator and has an option to increase its' interest to 60% by funding additional exploration on the property.

Qualified Persons:

The Resource Estimate for the San Diego property was undertaken by SGS Canada Inc- SGS Geostat Group under the management and supervision of M. Claude Duplessis, Ing., Ms. Kateri Marchand, P.Geo., M. Guy Desharnais Ph.D, P.Geo. and M. Gilbert Rousseau, Ing., Independent Qualified Persons (QP) in accordance with NI 43-101.
