

VANCOUVER, BC / ACCESSWIRE / June 29, 2015 / [Discovery Harbour Resources Corp.](#) (TSXV: DHR) ("DHR") is pleased to announce that it has completed its Phase II drilling program at its 100% owned 2BAR Project in the Table Mountain Mining District, Churchill County, Nevada. During this campaign, the Company drilled 6 holes for a total of 1,567.4 feet of HQ core. The program was completed without injury or incident.

The analysis of the samples will be performed at ALS Global using standard preparations for rock samples. All samples will be analyzed using ALS Global's four acid digestion followed by analysis using their ICP-MS process, code # ME-MS61 (48 element) and their Au-ICP 22, a 50 gram, FA, ICP-AES finish process for gold. All core samples were logged onsite, halved (cut), collected, bagged, labeled and hand-delivered to ALS in Reno through a secure chain of custody process which was overseen and directed by DHR's QPs. Assay results are expected within 4 weeks.

Michael J. Senn, a licensed professional geologist, is the Qualified Person for Discovery Harbour Resources as described in National Instrument 43-101 and has reviewed and approved the technical contents of this release.
