

LAKEWOOD, COLORADO--(Marketwired - Jun 30, 2015) - [Energy Fuels Inc.](#) (NYSE MKT:UUUU)(TSX:EFR) ("Energy Fuels" or the "Company"), one of the leading producers of uranium in the United States, is pleased to announce that the Company has been added to the broad-market Russell 3000® Index. The Russell 3000® Index measures the performance of the largest three-thousand companies in the U.S. equity market. In addition, as a member of the Russell 3000® Index, the Company has also joined the Russell 2000® Index, which measures the performance of the small-cap segment of the U.S. equity universe.

Stephen P. Antony, President and CEO of Energy Fuels stated: "Inclusion on the Russell 3000® Index is an exciting accomplishment for Energy Fuels. We are constantly working to create shareholder value and being added to the Russell 3000® Index provides an excellent opportunity to introduce our company to a broader universe of retail and institutional investors. More importantly, we believe nuclear energy is the best technology available to produce baseload electricity with very low life-cycle air and carbon emissions. As a leading producer of uranium in the United States, and with the United States being the largest producer of nuclear energy in the World, we are very optimistic about the future of Energy Fuels."

Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for active investment strategies. Approximately \$5.7 trillion in assets are benchmarked to the Russell's U.S. indexes. Russell indexes are part of FTSE Russell, a leading global index provider.

## About Energy Fuels

Energy Fuels is a leading integrated US-based uranium mining company, supplying U<sub>3</sub>O<sub>8</sub> to major nuclear utilities in the U.S. and globally. Energy Fuels operates two of America's key uranium production centers, the White Mesa Mill in Utah and the Nichols Ranch Processing Facility in Wyoming. The White Mesa Mill is the only conventional uranium mill operating in the U.S. today and has a licensed capacity of over 8 million pounds of U<sub>3</sub>O<sub>8</sub> per year. The Nichols Ranch Processing Facility, acquired through the Company's June 2015 acquisition of [Uranerz Energy Corp.](#), is an in situ recovery ("ISR") production center with a licensed capacity of 2 million pounds of U<sub>3</sub>O<sub>8</sub> per year. Energy Fuels also has the largest NI 43-101 compliant uranium resource portfolio in the U.S. among producers, and uranium mining projects located in a number of Western U.S. states, including two producing mines, mines on standby, and mineral properties in various stages of permitting and development. The Company's common shares are listed on the NYSE MKT under the trading symbol "UUUU", and on the Toronto Stock Exchange under the trading symbol "EFR".
