

TORONTO, July 29, 2015 /CNW/ - Golden Star is pleased to announce that yesterday it successfully closed the \$150 million financing with Royal Gold, Inc. ("RGI") and its wholly-owned subsidiary RGLD Gold AG ("RGLD") announced on May 7, 2015.

The \$150 million financing consists of a \$130 million stream transaction with RGLD and a further \$20 million term loan from RGI. Golden Star expects to receive the initial upfront payment of \$40 million from RGLD in relation to the stream and a further \$20 million from RGI in a term loan by close of business today.

Golden Star will immediately retire the full outstanding \$38 million on its Ecobank loan I, once funds have been received from RGI and RGLD. The initial upfront payment was reduced from \$55 million to \$40 million as the Company's drew down \$15 million on its existing \$25 million Ecobank loan II in advance of the conclusion of the financing. The full amount of the stream transaction remains \$130 million and the effective date remains April 1, 2015.

Funds received will facilitate development of Wassa and Prestea underground mines which are expected to be in production by late 2016. Work on both of these projects is progressing well. The remaining finance from the stream transaction is expected to be received incrementally as the projects' construction advances. The Company expects to receive the remaining \$90 million in quarterly payments between September 2015 and September 2016.

The Company's financial results will be released after market close today, July 29, 2015, at which time a full update on the development projects will be provided.

Golden Star's financial advisor with respect to the gold stream and loan transactions was BMO Capital Markets.

Company Profile:

Golden Star Resources (NYSE MKT: GSS; TSX: GSC; GSE: GSR) ("Golden Star" or the "Company") is an established gold mining company that holds a 90% interest in the Wassa, Prestea and Bogoso gold mines in Ghana. In 2014, Golden Star produced 261,000 ounces of gold. The Company is financed to pursue brownfield development projects at its Wassa and Prestea mines which are expected to transform these mines into lower cost producers from 2016 onwards. As such, Golden Star offers investors leveraged exposure to the gold price in a stable African mining jurisdiction with significant development upside potential.
