

Vancouver B.C. / TheNewswire / August 7 2015 - [TNR Gold Corp.](#) ("TNR" or the "Company") held its Annual General Meeting on August 6, 2015 and is pleased to announce that all resolutions proposed in the information circular were passed. In addition, all agenda items, as outlined in the circular, were approved and all directors standing for election were re-elected. The Directors for the ensuing year will consist of Mr. Gary Schellenberg, Mr. Kirill Klip, Mr. Paul Chung and Mr. Greg Johnson.

Mr. Gary Schellenberg was reappointed President and Chief Executive Officer. Mr. Kirill Klip was appointed Non Executive Chairman of the Board and will directly support and advise the Chief Executive Officer of the Company. Mr. Jerry Bella was reappointed Secretary and Chief Financial Officer, Mr. John Harrop was reappointed Vice President of Exploration and Mr. Anthony Kovacs was appointed Chief Operating Officer.

#### ABOUT TNR GOLD CORP.

Over the past twenty-five years TNR, through its lead generator business model, has been successful in generating high quality exploration projects around the globe. With the Company's expertise, resources and industry network, it is well positioned to aggressively identify, source, explore, partner and continue to expand its project portfolio.

In 2014 TNR Gold converted a back-in right on a portion of the Los Azules copper deposit in Argentina, owned by McEwen Mining, into a 0.4% NSR on the entire Los Azules deposit (see news release dated 17 October 2014).

In 2013 TNR Gold reported an inferred mineral resource at the Shotgun Gold project in Alaska containing 20,734,313 tonnes at 1.06 grams per tonne ("g/t") gold for a total of 705,960 ounces gold ("Au") using a 0.5 g/t Au cut-off (see news release dated 22 April 2013).

In 2011 TNR listed subsidiary, [International Lithium Corp.](#) (TSX:ILC.V), which demonstrates the successful application of TNR's business model in which TNR shareholders benefited from a unit distribution upon spin-out of TNR's lithium and rare metals projects. TNR remains a large shareholder in ILC at 25.5% of outstanding shares.

At its core, TNR provides significant exposure to gold and copper through its holdings in Alaska and Argentina; and teamed with the recent acquisitions of rare-earth elements and iron ore projects in Canada confirm TNR's commitment to continued generation of in-demand projects, while diversifying its markets and building shareholder value

On behalf of the board,

Gary Schellenberg

President
