

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Sep 21, 2015) - [Scorpio Gold Corp.](#) ("Scorpio Gold" or the "Company") (TSX VENTURE:SGN) reports additional results from the 2015 expansion drilling in the Brodie deposit target area at its 70% owned Mineral Ridge project, located in Nevada.

The 2015 expansion program at Mineral Ridge includes infill, development and exploration drilling to expand and upgrade the current mineral reserve and resource base and potentially extend life of mine.

Twelve of the 15 holes presented in Table 1 were drilled within or adjacent to the 2014 floated cone pit outlines for the Brodie deposit. Two holes, MR151656 and 660 were collared 150 meters west of the pit outlines in the vicinity of a mag tilt high, where previous drilling intersected significant grades at approximately 60 meters vertical depth. MR151670 was an exploration hole collared approximately 150 west of the Brodie deposit Management believes that results received from the expansion drilling program should positively impact the existing resource base at the Brodie deposit.

Highlights from this phase of expansion drilling on the Brodie deposit include:

- MR151621: 3.61 grams per tonne ("g/t") gold over 1.52 meters
- MR151629: 5.86 g/t gold over 1.52 meters
- MR151630: 1.59 g/t gold over 3.05 meters
- MR151654: 1.36 g/t gold over 7.62 meters
- MR151655: 4.09 g/t gold over 4.57 meters
- MR151657: 2.51 g/t gold over 4.57 meters
- MR151658: 12.55 g/t gold over 3.05 meters

A drill hole location map is available at: DH Plan

All holes presented in Table 1 were completed by reverse circulation (RC) drilling. True width is estimated at 90-100% of downhole width. Analytical results were performed by American Assay Laboratory Inc. in Sparks, Nevada, an ISO/IEC 17025:2005 accredited facility. External check assays to verify lab accuracy are routinely completed by ALS Chemex, an ISO 9001:2000 certified and ISO/IEC 17025:2005 accredited facility. Further details are presented in the Company's quality assurance and quality control program for the Mineral Ridge project available at: MR QAQC.

About Scorpio Gold

Scorpio Gold holds a 70% interest in the producing Mineral Ridge gold mining operation located in Esmeralda County, Nevada with joint venture partner Waterton Global Value L.P. (30%). Mineral Ridge is a conventional open pit mining and heap leach operation. The Mineral Ridge property is host to multiple gold-bearing structures, veins and lenses at exploration, development and production stages. Scorpio Gold also holds a 100% interest in the advanced exploration-stage Goldwedge property in Manhattan, Nevada, with a fully permitted underground mine and 400 ton per day mill facility. The Goldwedge mill facility has been placed on a care and maintenance basis for the near-term and can be restarted immediately when needed.

Scorpio Gold's President & CEO, Peter J. Hawley, PGeo., is a Qualified Person as defined by National Instrument 43-101 and has reviewed and approved the content of this release.

ON BEHALF OF THE BOARD

SCORPIO GOLD CORPORATION

Peter J. Hawley, President & CEO

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

The Company relies on litigation protection for forward-looking statements. This news release contains forward-looking statements that are based on the Company's current expectations and estimates. Forward-looking statements are frequently characterized by words such as "plan", "expect", "project", "intend", "believe", "anticipate", "estimate", "suggest", "indicate" and other similar words or statements that certain events or conditions "may" or "will" occur, and include, without limitation, statements regarding the Company's plans with respect to the exploration, development and exploitation of its Mineral Ridge project, including potential further exploration or development of the Brodie deposit, any potential expansion of the current pit shell outline thereof, and any potential increase in the mineral reserve and resource estimate in respect thereof. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that could cause actual events or results to differ materially from estimated or anticipated events or results implied or expressed in such forward-looking statements, including risks involved in mineral exploration and development programs and those risk factors outlined in the Company's Management Discussion and Analysis as filed on SEDAR. Any forward-looking statement speaks only as of the date on which it is made and, except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any forward-looking statement, whether as a result of new information, future events or results or otherwise. Forward-looking statements are not guarantees of future performance and accordingly undue reliance should not be put on such statements due to the inherent uncertainty thereof.
