

Mangazeya Mining Announces the withdrawal of the technical report titled the “Technical Report for Nasedkino Gold Deposit

07.10.2015 | [CNW](#)

TORONTO, Oct. 7, 2015 /CNW/ - [Mangazeya Mining Ltd.](#) ("Mangazeya" or the "Company") (NEX: MGZ.H) announces the withdrawal of the "Technical report for Nasedkino Gold Deposit in Mogocha, Trans-Baikal Territory, Russian Federation" (the "2014 Technical Report") for Dalsvetmet LLC (a Russian company within Mangazeya) prepared by LLC Miramine in compliance with the JORC code.

The 2014 Technical Report was filed on Sedar on December 15, 2014. This report was prepared in accordance with the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC). Due to non-compliance of the 2014 Technical Report with Form 43-101F1 of the National Instrument NI 43-101 the Company withdraws the 2014 Technical Report and informs investors not to rely on the technical report's estimates.

The "Technical report 43-101 for Nasedkino Project Mogocha, Transbaikals Region, Russian Federation dated October 10, 2012 by SRK Consulting" (the "2012 Technical Report") was filed on Sedar on November 26, 2012. The 2012 Technical Report is the only reliable estimate of mineral resources as of March 2012. The 2012 Technical Report resulted in the feasibility report submitted to the State Commission on Mineral Reserves ("GKZ"). The feasibility report was returned to the Company for further geological study. Given the circumstances listed above, there is no updated reserves estimates for the Nasedkino property since the 2012 Technical Report for investors to rely on.

Currently the Company is in the process of preparation of the updated feasibility report and will be ready to submit the report to GKZ in early 2016. Subject to the results of GKZ's review the Company will consider preparation of a technical report in accordance with NI 43-101 in order to announce the revised resources and reserves estimates.

The Company believes that the withdrawal of the technical report will not lead to material changes in mineral reserve estimates of Nasedkino deposit and valuation of the deposit's assets in consolidated financial statements.

Nasedkino license area is situated 440 kilometres northeast of Chita (the administrative capital of the Zabaikalsky Territory). Nasedkino mine is not in the production stage.
