Vancouver, BC / TheNewswire / Cardiff Energy Corp. (the "Company") (TSX-V: "CRS", Frankfurt: "C2Z.F", US Pinksheets: "CRRDF") is pleased to provide an update on the lateral drilling of the Clayton #1H. Martin Energies, Operator of the Clayton #1H, states "We have landed the lateral into the Gardner Lime and have encountered significant Gas and Oil shows, indicating a zone with strong potential. The zone came in structurally at a very favourable sub sea level. This drill out has thus far exceeded our expectations." The Company will be providing further updates as new information is relayed from the drill site.

The Company is also pleased to report that they have acquired an additional 100 Acre prime oil and gas lease bordering the Clayton #1H and have entered into a letter of intent to acquire an additional 400 Acre oil and gas lease adjacent to the Clayton #1H. Furthermore, the Company continues to negotiate other strategic oil and gas lease acquisitions in Runnels County, Texas.

Jack Bal, President and CEO of Cardiff Energy Corp., states "We are very excited with the results of the lateral drilling to date and anticipate the completion of the lateral drilling this week with flow test to follow soon thereafter."
