About Gibsons

Gibsons is a large independent integrated service provider to the oil and gas industry with operations across major producing regions throughout North America. Gibsons is engaged in the movement, storage, blending, processing, marketing and distribution of crude oil, condensate, natural gas liquids, water, oilfield waste, and refined products. The Company transports energy products by utilizing its integrated network of terminals, pipelines, storage tanks, and trucks located throughout western Canada and through its significant truck transportation and injection station network in the United States. Gibsons also provides emulsion treating, water disposal and oilfield waste management services in Canada and the United States and is the second largest industrial propane distribution company in Canada. The Company's integrated operations allow it to participate across the full midstream energy value chain, from the hydrocarbon producing regions in Canada and the United States, through the Company's strategically located terminals in Hardisty and Edmonton, Alberta, and injection stations and small terminals in the United States, to the end user or refineries of North America.
