Vancouver, BC / TheNewswire / November 12, 2015: BonTerra Resources Inc. (TSX-V: BTR) (the "Company" or "Bonterra") is pleased to announce the appointment of Mr. R. Dale Ginn as the Company's Vice President of Exploration. Mr. Ginn was previously appointed a Director of Bonterra on March 19, 2015.

Nav Dhaliwal, President and CEO, stated: "As Bonterra continues to uncover the significant potential of our 100% owned Gladiator Project and ensures that the market understands what we believe will be the next exciting gold project in the Abitibi Gold Belt, Mr. Ginn brings the key elements to ensure we execute and are successful. With his extensive geological understanding of structurally controlled deposits and hands-on experience and leadership, he will be tasked to oversee the Company's exploration activities in Quebec."

Mr. Ginn is an experienced mining executive and geologist of nearly 30 years. He is the founder of two exploration and mining companies and has led and participated in numerous gold and base metal discoveries, many of which have gone into production. While specializing in complex, structurally- controlled gold deposits, he also has extensive mine-operations, development and startup experience. Mr. Ginn is recognized as an advocate of First Nations and local community participation in mining and exploration. Mr. Ginn's career has included mine and exploration geology, mine management and various executive roles. He is currently the Vice-President of Kerr Mines Inc. and Chief Executive Officer of SGX Resources Inc. and was a founder of San Gold Corp. and Chief Executive Officer until 2010. Prior to that, he held positions with Harmony Gold, Hudbay, Westmin, Goldcorp and Granges Exploration. Mr. Ginn is a registered professional geologist in Manitoba and Ontario and is a graduate of the University of Manitoba.

Bonterra Resources Quick Facts:

- -Currently drilling at its 100% owned Gladiator Gold Project to expand current gold resource.
  - -First hole intersected 14.1 g/t Au over 6.6m (announced November 4, 2015)

  -Located in the Abitibi Greenstone Belt in mining-friendly Quebec.

  -Using a 4 g/t cut-off grade, the project currently contains an inferred resource of 905,000 tonnes, grading 9.37 g/t for 273,000 ounces of gold. Of note, ~90% of the worlds operating mines have an average gold grade less than 8 g/t.

  -~35 million shares outstanding and debt free.

  -Most recent financing: ~$2.5 million (Oban Mining Corp. [TSX-V: OBM] became largest shareholder at 19% holdings - see news release dated July 7, 2015).

  -The Gladiator Project is located in the Urban-Barry Greenstone Belt and is comprised of three properties: West Arena, East Arena, and Coliseum Properties.

  -The Gladiator Project is located approximately 170 km northeast of Val-d'Or south of the Windfall Lake gold deposit, and southeast of the Bachelor and Barry gold deposits.
