

Vancouver, BC / TheNewswire / November 23, 2015 - Durango Resources Inc. (the "Company" or "Durango") announces that it has agreed to terms in a right of first refusal (ROFR) with an arm's length vendor for a 2,460 acre lithium project called the East Fault claims located in the South Clayton Valley of Nevada, USA.

The East Fault claims cover the area from Pure Energy Minerals' (TSX-V:PE) eastern border to the east bounding (graben) faults the East Fault and E-2 Fault. The property includes eleven kilometers (7 miles) of the East Fault, 3.5 kilometers (2.2 miles) of the E-2 Fault, and eight kilometers (5 miles) of the (projected) 1,000 meter bedrock depth gravity contour (See Pure Energy NI 43-101 Technical Report, July 17, 2015).

The ROFR terms set out between Durango and the vendor specify that Durango has 30 days to complete due diligence on the claims and the accompanying data and enter into a definitive agreement. Once an agreement is signed the Company will:

- -Issue one million shares of Durango to the vendor after approval of the transaction by the TSX Venture Exchange;
- Sign a 3% Net Smelter Royalty (NSR), with the option of a 1% buyback for \$1M within three years of signing a definitive agreement; and
- Pay \$29,000 USD in claim fees.

Further details on the East Fault property will be announced as they become available. Durango looks to complete private placement and flow through financings to enable immediate exploration on the NMX East claims adjacent to Nemaska Lithium (TSX.V-NMX) and to further evaluate the claims adjacent to Pure Energy in Nevada, USA.
