

# Global Cobalt Obtains Final Order for Plan of Arrangement & Spin-Out of Global Energy Metals

25.11.2015 | [The Newswire](#)

VANCOUVER, NOV. 25, 2015 - [Global Cobalt Corp.](#) (TSXV:GCO, OTCBB:GLBCF, FRA:3P0) ("Global Cobalt" and/or the "Company") is pleased to announce that the Supreme Court of British Columbia has granted a final order (the "Final Order") approving the previously announced plan of arrangement (the "Arrangement") involving Global Cobalt, Imperial Mining Holding Ltd., and Global Energy Metals. The granting of the Final Order was a condition to the completion of the Arrangement. The Arrangement was approved by Global Cobalt security holders at a special meeting of Global Cobalt held on August 31, 2015.

The Company looks forward to satisfying the remaining closing conditions and successfully completing the Arrangement. Shareholders and interested parties will be notified in a subsequent news release with the expected effective date that shareholders of Global Cobalt, other than Imperial Mining Holding Ltd., would still be eligible to receive the number of shares of Global Energy Metals that is equal to the number of shares they hold in Global Cobalt.

Upon closing of the Arrangement, Global Cobalt will continue to list on the TSX Venture Exchange and hold the option on the Karakul Cobalt Project ("Karakul"). Karakul, located in the Altai Republic, Russia, will remain the priority project for Global Cobalt. Given its proximity to China, Karakul has the potential to become a key supplier for the Chinese cobalt market.

Global Energy Metals is applying for a public listing, and will act as a vehicle for acquisitions in the battery metals space and will move forward a strategy to be a project bank for these critical metals, including cobalt, lithium and graphite.

For details of the Arrangement, please see Global Cobalt's management information circular dated August 5, 2015 and various press releases that have been filed on Global Cobalt's profile on SEDAR at [www.sedar.com](http://www.sedar.com).

## Global Cobalt Corp.:

Global Cobalt Corp. is a publicly traded Canadian resource company that was founded in 2007 to take advantage of the global transformation that is occurring in the strategic metals sector of the mining industry. Through a combination of acquisitions and internally developed businesses, Global Cobalt exploits market opportunities as they emerge in various sectors of the energy metals sector with emphasis on those metals, such as cobalt, used in the rechargeable battery space.
