VANCOUVER, BRITISH COLUMBIA--(Marketwired - Dec 1, 2015) - Select Sands Corp. (TSX VENTURE:SNS)(OTC PINK:CLICF) (the "Company") is pleased to announce that John Kime will be joining the Company's board of directors as an independent director and has been appointed as audit committee chairman. In order to allow room for John Kime to join as a new director, Steven Goldman has resigned as a director with the view to rejoining as a director at the Company's annual general meeting in late January, 2016. Mr Goldman will continue to act as general counsel to the Company.

Mr. Kime is the President and CEO of iBD Advisors Inc., a privately-owned Canadian company providing guidance to Canadian and international companies on site location needs and business considerations connected with their plans to locate and expand in North America. Prior to assuming his responsibilities at iBD Advisors, Mr. Kime was the President and CEO of the London Economic Development Corporation, a public/private partnership with responsibility for providing economic development services to the city of London, Ontario, Canada. From 1991 to 1998, Mr. Kime served as Director of International Development for Big 'O' Inc., a company engaged in the development of manufacturing technologies used in the control and containment of water, chemicals and other substances. Mr. Kime has a BA from Western University. Mr. Kime has been chosen to be a director in light of his significant business operating, accounting and financial experience. Mr. Kime has been a director of Tribute Pharmaceuticals Canada Inc. since December 2000 as well as being Chair of Tribute's audit committee.

"We are fortunate to have John joining our board," stated Rasool Mohammad, President and CEO of Select Sands. "John's business, financial and accounting experience will help the Company at this critical transition stage, where the Company is to become an operating company."

Mr. Kime's appointment is effectively immediately but remains subject to TSX Venture Exchange approval.

About Select Sands Corp.

Select Sands' Sandtown property, located in northeast Arkansas, USA, is underlain by the Ordovician St. Peter sandstone formation, which is a major source of 'Ottawa White' Tier-1 frac sand/industrial sand selling into major US oil and gas basins as well as industrial and speciality end markets. The Sandtown property is located 3.1 miles from Highway 167 near a natural gas pipeline. The property has an active power line on the property and is located approximately 14.7 miles from the nearest rail system (see December 4, 2014 News Release). Compared to competitive sand mines located in Wisconsin owned by the largest US frac sand producers, Sandtown has a competitive location advantage as it is approximately 650 rail miles closer to the Texas/Louisiana oil/gas plays as well as the Houston port and industrial hub.

As per a recently completed Preliminary Economic Assessment report by Tetra Tech of Golden, Colorado, USA and Vancouver, BC, Canada, the Sandtown property contains 22 million tons of Indicated resources of silica sand with a pre-tax NPV valued at US $160 million. This mineral resource is contained within 40% of the total property area (See June 10, 2015 News Release). The Company would like to remind investors that mineral resources for the Sandtown Property are not mineral reserves and do not have demonstrated economic viability and there is no certainty that this preliminary economic assessment will be realized.

The Company also owns high-grade gold deposit in the La Ronge Gold Belt, northern Saskatchewan. The Preview SW Gold Project hosts indicated resources containing 158,300 ounces of gold (2.61 million tonnes grading 1.89 g/t Au) and inferred resources containing 270,800 ounces (5.70 million tonnes grading 1.48 g/t Au) based on a 0.50 g/t Au cut-off grade (See October 31, 2013 News Release).
