About Pershimco Resources Inc.

[Pershimco Resources Inc.](#) (TSX VENTURE:PRO)(FRANKFURT:BIZ) is a mineral exploration and development company with a nearterm gold oxide production scenario and a copper‐gold porphyry target at its 100%‐owned Cerro Quema Project in Panama. Cerro Quema's concession boasts paved road access, no indigenous groups and the most favorable climate in the country. Additionally, the Cerro Quema Project has proven to have significant exploration upside with resource expansion potential in over 12 oxide targets identified along a 17km trend as well as porphyry indicators along a 12km strike length that highlights the potential for a nearby copper‐gold porphyry system. With strong shareholder support, Pershimco aims to achieve cash flowing status in the near term to continue uncovering the value of Cerro Quema. Please refer to the Cerro Quema Project ‐ Pre‐Feasibility Study on the La Pava and Quemita Oxide Gold Deposits, available on the Company's website, and filed on SEDAR on August 22, 2014 as well as to the press release of July 8, 2014.
