About Nevada Energy Metals

[Nevada Energy Metals Inc.](#) is a Canadian Based exploration and development company who's primary listing is on the TSX Venture Exchange. The company's main focuses are brine based lithium exploration targets located in the mining friendly state of Nevada. As of the 13th of January the company has completed a \$900,000 CAD secondary funding to carry out an exploration program on the area known as Alkali Lake and Alkali Flats. This lithium target is located in Esmeralda County, Nevada, just 12km from Rockwood Lithium, the only brine based lithium producer in North America. Nevada Energy Metals must complete a one-time payment of shares, cash payments over three years and complete certain exploration milestones to earn its 60% interest.
