

TSX: GPR
NYSE MKT: GPL

VANCOUVER, Feb. 12, 2016 /CNW/ - [Great Panther Silver Ltd.](#) (TSX: GPR; NYSE MKT: GPL) ("Great Panther"; the "Company") announces that the Mexican regulatory authority responsible for permitting and regulating the use of explosives, has concluded its inspection regarding the previously announced theft of explosives from one of the mines at the Guanajuato Mine Complex ("GMC"). The Company was assessed a fine, which has been paid and will not materially impact its financial results.

Further to the Company's news release of January 15, 2016, upon the renewed request of the Mexican regulatory authority, the Company has again temporarily suspended the use of explosive material at the GMC, until all administrative matters are concluded. The final inspection was recently completed and authorization to resume the use of explosives is anticipated within the next few working days. As a result of the temporary suspension, the Company has halted processing at the Cata plant. The Company does not expect the temporary suspension will affect its previously released production guidance, and will provide an appropriate update should expectations change.

In addition, an internal investigation is ongoing and the Company has already taken several steps to increase security and safeguard its operations against further theft.

ABOUT GREAT PANTHER

[Great Panther Silver Ltd.](#) is a primary silver mining and exploration company listed on the Toronto Stock Exchange trading under the symbol GPR, and on the NYSE MKT trading under the symbol GPL. Great Panther's current activities are focused on the mining of precious metals from its two wholly-owned mining operations in Mexico: the Guanajuato Mine Complex, which includes the San Ignacio Mine, and the Topia Mine in Durango. The Company holds an option agreement to acquire a 100% interest in the Coricancha Mine Complex in the central Andes of Peru and holds an option to acquire a 100% interest in the advanced-stage Guadalupe de Los Reyes Project in Sinaloa, Mexico. Active exploration programs are underway at both projects.
