

THIS RELEASE IS NOT FOR DISTRIBUTION TO U.S. NEWS WIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES.

[Northern Empire Resources Corp.](#) (TSX VENTURE:NM) (the "Company" or "Northern Empire") today announced the closing of a non-brokered private placement of 3,600,000 units of the Company at a price of \$0.10 per unit for gross proceeds of C\$360,000.

Each unit consists of one common share and one half of one common share purchase warrant. Each whole common share purchase warrant entitles the holder to purchase one additional common share at a price of C\$0.15 per common share until February 17, 2019.

Northern Empire will apply the net proceeds of the offering to hold and advance the Company's portfolio of gold exploration projects in North America, including the Richardson Property gold project in Alaska, and for general corporate purposes.

The Company paid commissions to finders under the placement consisting of aggregate cash commissions of C\$1,500 and the issuance of an aggregate of 15,000 finder's warrants. Each finder's warrant entitles the holder to purchase one common share of the Company at a price of C\$0.15 per common share until February 17, 2019.

All securities issued or issuable under the offering are subject to a four-month hold period expiring on June 18, 2016, in addition to such other restrictions as may apply under applicable securities laws in jurisdictions outside of Canada.

Final closing of this Offering is subject to final acceptance by the TSX Venture Exchange.

About Northern Empire

Northern Empire follows the "Project Generator" business model to take advantage of the depressed market conditions in the resource sector to acquire low acquisition and low holding cost properties with significant exploration potential.

A Project Generator identifies, acquires, and performs early stage exploration on compelling exploration targets before finding project partners to bear the financial risk associated with advanced exploration.

Northern Empire's experienced board and management team feels that executing the Project Generator business model is the most practical way to provide investors the potential excitement and value creation of mineral discoveries, without the financial risks and equity dilution of standard exploration programs.
