

Vancouver, BC / TheNewswire / February 25, 2016 - [Manado Gold Corp.](#) (TSX-V: MDO) (the "Company") is pleased to announce that its Amalgamation candidate, RewardStream Solutions Inc. ("RewardStream"), has reported that it has launched its Innovator's Program for RewardStream's referral marketing extension designed specifically for Magento's eCommerce stores. Magento powers the eCommerce platform for over 240,000 online stores around the globe.

RewardStream's referral marketing extension will seamlessly integrate referral marketing capabilities directly into a Magento online store with minimal configuration and management. The extension enables a store's existing customers to share the brand message through channels like Facebook, Twitter, Gmail, Outlook.com, text message and more to generate referrals and recommendations. Customers are rewarded automatically within the platform every time their referral brings in a paying customer, and with RewardStream's analytics, Magento store operators can find everything from their best referring customers to the cost per acquisition for their referral efforts.

The Magento Innovator's Program is limited to a select group of Magento customers in the United States and Canada. In exchange for product feedback, participants in the program will receive early access to the RewardStream software, ongoing implementation and account support, free lifetime upgrades for the Magento extension software and discounts on fees.
