[Carube Copper Corp.](#) (TSXV: CUC) is a Canadian exploration company focused on the exploration and development of copper and gold projects in Jamaica and Canada. In Jamaica, two projects, totalling 188 square kilometres in area, are the subject of separate joint venture agreements with [OZ Minerals Ltd.](#), an Australian copper-gold producer with a market capitalization of over \$1B. Carube Copper holds a 100% interest in two other nearby projects, totalling 72 square kilometres. In Canada, Carube Copper holds a 100% interest in three porphyry copper-gold-molybdenum properties, totalling 593 square kilometres within the Tertiary-aged Cascade Magmatic Arc in southwestern British Columbia. Exploration continues on these properties with the goal of joint-venturing them to larger exploration and mining companies.
