

March 8, 2016 / TheNewswire / Vancouver, BC - [Dajin Resources Corp.](#) ("Dajin") (C:DJI) (OTC: DJIFF) (Frankfurt: A1XF20) is pleased to report that Dajin Canada Director Dr. Catherine Hickson and Dajin Argentina President, Mr. Cosme Beccar-Varela have recently completed a visit to Jujuy Province in northwestern Argentina.

During Dr. Hickson's visit to Argentina, meetings were held with several senior Argentine government officials including Daniel Meilan, Secretary of Mining, Ministry of Energy and Mining for Argentina and Dr. Miguel Soler, Secretary of Mining, Ministry of Energy and Mining for Jujuy Province. Dr. Hickson also met with the indigenous community of Inti Killa, Tres Morros which is located on the Salinas Grandes in Jujuy Province. Dajin signed a cooperation agreement with the community of Tres Morros, represented by Mr. Andres Castillo, to provide support during the exploration phase of the San Jose Project. All parties present were satisfied with the results of this meeting and look optimistically to advancing the exploration program.

Dr. Hickson wishes to announce that Dr. Beatriz Coira, a well-known and respected geologist with international experience and based in Jujuy has agreed to join Dajin's Technical Advisory Board. Dr. Coira has been studying tectonics, volcanology, geothermal and mining resources in the Puna region of Argentina for many years. She will provide Dajin with a valuable and important link to historical work in the Puna region in addition to her continuing research with the National Science and Technical Research Council (CONICET) of Argentina.

On December 29, 2015 the first UGAMP meeting was convened to review community and environmental consideration for exploration. Full support for the project to move forward was received from the people present at this meeting. A second UGAMP meeting has been scheduled for March 15, 2016.

About Dajin: ([www.dajin.ca](http://www.dajin.ca))

Dajin is an early stage energy metals exploration company holding a 100% interest in 215 placer claims known to contain lithium and boron values in the Teels Marsh region of Mineral County, Nevada. These claims, which cover 4,574 acres (1,851 hectares), are the birth place of US Borax Corp's first borax mine. Dajin has entered into an option agreement with [Nevada Energy Metals Inc.](#) (C:BFF) to explore their 191 placer claims covering 3,851 acres (1,558 hectares) in the Alkali Lake region of Esmeralda County, Nevada, 7 miles (12 kilometers ) northeast of Rockwood's Clayton Valley Lithium operations..

Dajin also holds a 100% interest in concessions or concession applications in Jujuy Province, Argentina that were acquired in regions known to contain brines with potassium, lithium and boron values. These concessions total approximately 100,000 hectares (247,000 acres) with 80,248 hectares (198,000 acres) located in the Salinas Grandes/Guayatayoc salt lakes basin adjacent to concessions held by [Orocobre Ltd.](#) (C:ORL), who is partnered with Toyota Tsusho. Dajin recently completed an agreement with the Tres Morros Cooperativa for exploration of the 4,400 hectares (10,873 acres) San Jose and Navidad concessions within the Salinas Grandes salar.
