

Vancouver, BC / TheNewswire / March 16, 2016 - [Durango Resources Inc.](#) (the "Company" or "Durango") announces that it has renewed the Trove claims situated in the Windfall Lake area of the Urban-Barry greenstone belt in Quebec. The Trove property is located ninety kilometers east of the town of Lebel-sur-Quevillon and about 100km southwest of Chibougamau. The twenty one (21) claims and 1,176 hectares border both [Oban Mining Corp.](#) (TSX-OBM) and Beaufield Resources Inc. (TSX.V-BFD) in Quebec.

Marcy Kiesman, CEO stated, "The Trove property area is particularly interesting since it has a high potential for gold in fault-controlled and gold-bearing bodies along the major deformation zones which is why Durango has maintained the property. Previous exploration on the Trove has shown anomalous gold and zinc results along the contact of the Barry fault. With Oban Mining's increased activity and land position in the Windfall Lake area, I am pleased Durango continues to hold the Trove property."

About Durango
