

# Athabasca Nuclear Corporation Acquires Hat Au-Cu East Property

08.04.2016 | [FSCwire](#)

Vancouver - [Athabasca Nuclear Corporation](#) (TSX-V: ASC) ("Athabasca Nuclear" or the "Corporation") is pleased to report that it has acquired the Hat Au-Cu East Property.

The Hat Au-Cu East Property is located in the Sheslay region of British Columbia and was acquired through staking. The project is represented by mineral title 1043333 and is approximately 2,061 acres in size. An initial objective for the property is the identification of Au-Cu porphyry targets.

A map of the Hat Au-Cu East Property may be viewed at:

The Hat Au-Cu East Property shares a contiguous property border with the Hat Project being advanced by Doubleview Capital Corp. and includes, among its other attributes, all of the mineral tenure previously comprising the Hackett North project formerly belonging to Alix Resource Corp.

"The increase in domestic gold prices is resulting in an ongoing renaissance of gold exploration in Canada. Our acquisition of the Hat Au-Cu East Property is one that we believe offers an attractive opportunity to benefit from ongoing advancements in the Sheslay gold-copper district. As we develop our exploration plans for the Hat Au-Cu East Property we will look to conduct local stakeholder engagement.

Athabasca Nuclear has enjoyed considerable success when acquiring contiguous ground to upcoming exploration districts – including at our flagship Preston uranium exploration project which shares a lengthy 30+km contiguous property border with Nexgen Energy Ltd.'s Arrow-hosting Rook-1 property. We continue to look for project opportunities that add value for our shareholders," stated Ryan Kalt, CEO of Athabasca Nuclear.

## About Athabasca Nuclear Corporation

[Athabasca Nuclear Corporation](#) (TSXV:ASC) is an exploration company primarily focused on uranium through its 50% interest in the Preston Uranium Project, one of the largest tenure positions in the emerging Western Athabasca Basin. The Corporation also holds other mineral exploration projects including its district-scale Wollaston NE Uranium Project and other select gold and nickel-PGM opportunities. More information about Athabasca Nuclear and its projects may be found at [www.athabascanuclear.com](http://www.athabascanuclear.com).

Signed,

Ryan Kalt, Chief Executive Officer
