21.04.2016 | [Marketwired](#)

CALGARY, April 21, 2016 - [Stratabound Minerals Corp.](#) (TSX VENTURE: SB) ("Stratabound" or "the Company") is pleased to announce that the TSX Venture Exchange has approved the Company's application for reinstatement of trading in Stratabound's common shares, and trading is scheduled to resume on Thursday, April 21, 2016.

The resumption of trading in the Company's shares is a major step forward toward completion of the Company's proposed combination with [Silver Stream Mining Corp.](#) The Company is continuing to work with the Exchange regarding the review of the transaction, although the Exchange has not yet made its acceptance. Should such acceptance be granted, and should the transaction be completed as currently contemplated, including the conversion of certain debts to Bellport Resources Ltd., the Company expects to have a total of 431,555,033 shares outstanding.

The Company is presently in the process of scheduling a meeting of shareholders for late June in Calgary (date, time and location are to be finalized) and at that time the Company plans to request that shareholders approve a 6 for 1 share consolidation, which would result in approximately 72 million shares outstanding. The Company is also working to complete the audit of December 31, 2015 financial statements, and such statements would also be presented for approval at the meeting.

Interim CEO Michael Page commented, "The resumption in trading of Stratabound's common shares is a major accomplishment as we work to re-establish Stratabound through the proposed combination with [Silver Stream Mining Corp.](#)"
