About Bravada

Bravada is an exploration company with 15 properties in Nevada, one of the best mining jurisdictions in the world. The Company follows a portfolio approach to exploration, focusing on gold and silver, and during the past 11 years has successfully identified and advanced properties that have the potential to host high-margin deposits while successfully attracting partners to fund later stages of project development. Currently, five of its Nevada properties are being funded by partners, which in aggregate include earn-in work expenditures of up to \$6.5 million and payments to Bravada of up to +\$3.0 million in cash and shares, with Bravada retaining residual working or royalty interests.

Bravada's most advanced property is Wind Mountain, which hosts a significant Indicated and Inferred resource of gold and silver with exciting potential for new discoveries. Currently defined resources at Wind Mountain are primarily oxide and near surface; thus, a low-cost open-pit, heap-leach operation could be permitted relatively quickly.
