

Inception Mining Inc. Announces New General Manager of Honduran Operations

26.04.2016 | [Marketwired](#)

SALT LAKE CITY, Apr 26, 2016 - [Inception Mining Inc.](#) (OTCQB: IMII) ("Inception" or the "Company"), through its majority-owned subsidiary Clavo Rico Ltd., is pleased to announce the recent hiring of Mr. Carlos Calderon as the new General Manager of Honduran Operations.

Mr. Calderon has extensive mining experience spanning exploration, engineering, design, operations, and management of small and large mining projects, exploring for metal and non-metal materials in the United States and Latin America. He has degrees in engineering and mathematics, and has held numerous positions in the industry, from field engineer to vice president. Mr. Calderon's most recent position was that of General Manager of Minerales de Occidente, S.A. de C.V., in Copan, Honduras, a surface gold mine located in Western Honduras that regularly produces 70,000 ounces per year. His full CV is accessible on the Company's website: www.inceptionmining.com.

Mr. Calderon has extensive industry contacts may benefit the Company's operations. He has family in Honduras and, together with his wife, is looking forward to renewing friendships and being close to family.

With the addition of Mr. Calderon, the Company believes that it now has the team in place to expand business endeavors and embark on the open pit operations of the recently acquired properties.

Clavo Rico Ltd. is a majority-owned subsidiary, having positive revenue and significant resources. Its mining concessions include several historical underground operations dating back to the early Mayan and Spanish occupation. The operating entity is engaged in processing historical tailings (> 3GPT) along with several open pit (3-6+ GPT) ore bodies, utilizing a new 650,000-ton membrane-lined leach system and ADR recovery plant.

About Inception Mining Inc.

We are a minerals resource company engaged in the production of precious metals. Our activities also include acquisition, exploration, and development of primarily gold related properties. Our primary target properties are those that have been the subject of historical exploration having significant supporting data.
