

Vancouver, BC (FSCwire) - [CKR Carbon Corp.](#) (TSX-V: CKR) (CBULF USA) is pleased to announce that the Ministry of Mines and Energy Namibia has renewed Exclusive Prospecting Licence No: 3895 that covers the Aukam Graphite Deposit in southern Namibia.

The initial renewal application was made by our Namibian partners on March 13, 2015 and the license has been renewed until March 13, 2017. CKR will make an application for a Mining license, on behalf of the joint venture, prior to expiry of the prospecting license.

The Company also announces that, as required under its Letter of Intent (see News Release dated, March 16, 2016), a 1.6 tonne sample has been delivered to the producer in order for it to test the material in its plant. Under the terms of the LOI, up to 5,000 metric tonnes of graphitic material grading between 40 and 50% Cg (carbon as graphite) will be delivered over the course of the next year, with a first shipment of between 2,000 and 3,000 tonnes of graphitic material made during July 2016.

The technical content of this news release was approved by Roger Moss, Ph.D., P.Geol a qualified person as defined by National Instrument 43-101.

#### About the Aukam Project

CKR has an option to acquire an initial 63% in the Aukam graphite project from Next Graphite. The project is located on 96,000 acres in southern Namibia close to the port city of Luderitz. The property hosts three underground adits which were mined periodically between 1940 and 1974. Five dumps from the historical mining occur on the property and 73 samples from the lower three dumps were assayed and averaged 42% Cg.

#### About CKR Carbon Corporation

[CKR Carbon Corp.](#) is focused on high quality natural graphite suitable for use in lithium-ion batteries and graphite foil. We only select projects requiring small capital and a short time to market. The company is listed on the TSX Venture Exchange under the symbol CKR and has 23.7 million shares outstanding.
