Ten Students to Receive Up to $20,000 Toward Undergraduate Studies in U.S. or Canada

HOUSTON, May 16, 2016 /PRNewswire/ -- Spectra Energy Corp. (NYSE: SE) today announced that 10 children of company employees have been selected to receive up to $5,000 per year in scholarship funds toward undergraduate study at an accredited college or university in the U.S. or Canada.

"Spectra Energy is proud to continue our 50-plus year tradition of offering a scholarship program for the children of our employees. We are pleased to make an investment in the futures of these exceptional students who demonstrate so much potential," said Greg Ebel, chief executive officer of Spectra Energy. "This year's scholarship recipients excel academically and actively participate in their schools and local communities."

Recipients under the Spectra Energy Scholars Program are graduating high school/secondary school seniors and are chosen annually by an independent committee of judges. The committee selects recipients based on their performance in academics, leadership and participation in school and community activities, honors and awards, work experience and financial need. The scholarships will provide the students up to $20,000 during their four years of undergraduate study.

Two additional students were recognized for their achievements and will each receive a one-time, $2,500 scholarship.
