01.06.2016 | [Marketwired](#)

CALGARY, Jun 1, 2016 - [West High Yield \(W.H.Y.\) Resources Ltd.](#) (TSX VENTURE:WHY) ("West High Yield" or the "Company") announces that it has commenced work on the environmental study, stakeholder engagement, and mine plan development on the Company's Record Ridge South Property as required by the Environmental Assessment Certification and Mine Permit application processes. The Company has engaged SRK Consulting (Canada) Inc. (Vancouver) and Greenwood Environmental Inc. (Vancouver) to start work on these projects. The Company has also engaged Drinkard Metalox, Inc. ("Drinkard") of Charlotte, North Carolina to perform a series of hydrometallurgical tests on the Company's magnesium ore to evaluate magnesium processing and recovery alternatives. Drinkard works with companies from around the world in developing and commercializing hydrometallurgical and electrochemical processes.

The Company continues to pursue additional financing for the environmental study and mine plan development for its magnesium project and for the extraction and processing of 10,000 tonne bulk samples of magnesium and gold on the Company's Record Ridge South Property as approved by the British Columbia Ministry of Energy and Mines.

## About West High Yield

West High Yield is a publicly traded junior mining exploration company focused on the acquisition, exploration and development of mineral resource properties in Canada with a primary objective to locate and develop economic gold, nickel and magnesium properties.
