

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Jul 25, 2016) - [Millennial Lithium Corp.](#) (TSX VENTURE:ML), ("Millennial" or the "Company") is pleased to announce the appointment of Iain Scarr as VP of Exploration and Development.

Mr. Scarr has worked primarily in industrial minerals exploration and commercial development since 1979. During his career with Rio Tinto, he was responsible for multiple discoveries in North and South America and Africa, and worked on the commercial justification for the Jadar lithium-borate resource in Serbia. He graduated with a B.Sc. in Geology from California State University, and earned an MBA from The University of Southern California.

Following his 29 years with Rio Tinto, Mr. Scarr incorporated IMEx Consultants and with a group of partners formed IMEx Minerals Inc. He then joined [Lithium One Inc.](#) where he was responsible for bringing the Sal de Vida lithium Brine project in Argentina through feasibility with Galaxy Resources, and more recently the Rincon project with Enirgi. During his time working on these world-class resources, Mr. Scarr established relationships with globally respected professionals from multiple disciplines world-wide.

Iain brings the expertise needed in the development and commercialization of mineral deposits, particularly lithium brine deposits in the "Lithium Triangle" of South America.
