

# Thompson Creek Metals Company Inc. Reports Second Quarter 2016 Financial Results

08.08.2016 | [CNW](#)

[Thompson Creek Metals Company Inc.](#) (TSX: TCM) (OTCQX: TCPTF) (the "Company" or "Thompson Creek"), a North American mining company, announced today financial results for the three and six months ended June 30, 2016, prepared in accordance with United States generally accepted accounting principles ("US GAAP"). All dollar amounts are in United States ("US") dollars unless otherwise indicated.

Jacques Perron, President and Chief Executive Officer of Thompson Creek, said, "During the second quarter of 2016, we continued to achieve solid performance with our company-wide safety program. We reduced unit cash costs on a by-product basis by 23% compared to the second quarter of 2015, generated net cash flows from our molybdenum business of approximately \$3 million and ended the quarter with working capital of approximately \$130 million, including approximately \$120 million of cash."

"We had a challenging quarter at Mount Milligan Mine with decreased copper and gold payable production quarter over quarter as a result of lower recoveries resulting mainly from lower ore grades, together with operational inefficiencies in the mill from higher throughput. The performance for the quarter was also impacted by lower mill availability due to a scheduled relining of the SAG mill and the planned relocation of the reclaim barge. Additionally, the operation incurred some unscheduled downtime associated with a tear to the main conveyor belt feeding the mill and electrical issues with one ball mill. Based on our forecast for the balance of the year, we expect annual production to be in line with our 2016 guidance of 55 to 65 million pounds of copper and 240 to 270 thousand ounces of gold, with payable copper production near the high end of the range and payable gold production at the low end of the range. For the remainder of 2016, our primary operational focus is to continue to optimize the mine and mill with the expectation to gradually increase recoveries," said Mr. Perron.

As previously announced, on July 5, 2016 Thompson Creek entered into an Arrangement Agreement with [Centerra Gold Inc.](#) ("Centerra"), pursuant to which Centerra will acquire all of the outstanding common shares of Thompson Creek pursuant to a statutory plan of arrangement under the Business Corporations Act (British Columbia). The closing of the Arrangement is subject to satisfaction of certain conditions, including, among others, approval of the Arrangement by Thompson Creek's shareholders, approval by the Supreme Court of British Columbia and receipt of any regulatory or stock exchange approvals, including approval of the Toronto Stock Exchange, and other customary closing conditions. We anticipate that the Arrangement will be consummated in the second half of 2016.

## Highlights for the Second Quarter of 2016

- Total cash and cash equivalents at June 30, 2016 were \$119.7 million, compared to \$176.8 million at December 31, 2015. Total debt, including capital lease obligations and excluding unamortized debt issuance costs and debt discounts, was \$873.2 million at June 30, 2016, compared to \$885.9 million at December 31, 2015.
- Working capital at June 30, 2016 was \$129.5 million, compared to \$174.7 million at December 31, 2015.
- Cash generated by operating activities was \$6.3 million in the second quarter of 2016, compared to \$23.9 million in the second quarter of 2015.
- Consolidated revenues for the second quarter of 2016 were \$128.7 million, compared to \$134.1 million in the second quarter of 2015. Copper and gold sales contributed \$102.2 million in revenue in the second quarter of 2016, compared to \$105.6 million in the second quarter of 2015. Molybdenum sales were \$22.3 million for the second quarter of 2016, compared to \$20.9 million in the second quarter of 2015. During the second quarter of 2016, we completed four shipments of copper-gold concentrate and recorded four sales, compared to three shipments and four sales in the second quarter of 2015.

- Sales volumes and average realized sales prices for copper and gold for the second quarter of 2016 were 20.3 million pounds of copper at an average realized price of \$2.15 per pound and 62,314 ounces of gold at an average realized price of \$1,041 per ounce, compared to 21.2 million pounds of copper at an average realized price of \$2.63 per pound and 57,920 ounces of gold at an average realized price of \$975 per ounce for the second quarter of 2015. In the second quarter of 2016, we sold 3.0 million pounds of molybdenum, which consisted of roasted molybdenum concentrate sourced from third parties, at an average realized price of \$7.38 per pound. In the second quarter of 2015, we sold 2.3 million pounds of molybdenum, which consisted of inventory produced at our mines in 2014 in addition to third-party sourced product, at an average realized price of \$9.23 per pound.
- Consolidated operating loss for the second quarter of 2016 was \$3.8 million, compared to \$12.1 million of operating income for the second quarter of 2015.
- Net loss for the second quarter of 2016 was \$27.9 million, or \$0.13 per diluted share, compared to net income of \$0.3 million, or nil per diluted share, for the second quarter of 2015. The net loss for the second quarter of 2016 and net income for the second quarter of 2015 included primarily unrealized non-cash foreign exchange loss of \$1.4 million and unrealized non-cash foreign exchange gain of \$16.9 million, respectively, primarily on intercompany notes.
- Non-GAAP adjusted net loss for the second quarter of 2016 was \$26.9 million, or \$0.13 per diluted share, compared to non-GAAP adjusted net loss for the second quarter of 2015 of \$13.5 million, or \$0.06 per diluted share. Non-GAAP adjusted net loss excludes foreign exchange gains and losses, net of related income tax effects. See "Non-GAAP Financial Measures" for the definition and reconciliation of non-GAAP adjusted net (loss) income.
- Payable production at Mount Milligan Mine for the second quarter of 2016 was 14.7 million pounds of copper and 46,383 ounces of gold, compared to payable production of 20.2 million pounds of copper and 59,917 ounces of gold for the second quarter of 2015.
- Non-GAAP unit cash cost per pound of copper produced for the second quarter of 2016, on a by-product basis, net of gold credits, was \$0.37 per pound and, on a co-product basis, \$1.84 per pound of copper and \$728 per ounce of gold. Non-GAAP unit cash cost in the second quarter of 2015 was, on a by-product basis, \$0.48 per pound of copper and on a co-product basis, \$1.55 per pound of copper and \$434 per ounce of gold. See "Non-GAAP Financial Measures" for the definition and reconciliation of non-GAAP cash costs.
- Capital expenditures for the second quarter of 2016 were \$15.9 million, composed of \$15.8 million primarily related to the construction of the permanent secondary crushing circuit at Mount Milligan Mine and \$0.1 million for TC Mine, compared to \$9.7 million for the second quarter of 2015.

	3,014	3,036	2,654	2,934	2,255
Average realized sales price (\$/lb)	\$ 7.38	\$ 6.47	\$ 6.39	\$ 7.86	\$ 9.23

- (1) See "Non-GAAP Financial Measures" for the definition and reconciliation of these non-GAAP measures.
- (2) Payable production for copper and gold reflects estimated metallurgical losses resulting from handling of the concentrate and payable metal deductions, subject to metal content, levied by smelters. The current payable percentage applied is approximately 95.0% for copper and 96.5% for gold.

#### Current Guidance

The following table presents our guidance for the full year 2016, which remains unchanged from the guidance issued previously. We currently expect that our 2016 copper production will be on the high end of our guidance range, and our 2016 gold production, by-product cash costs and capital expenditures to be at the low end of our guidance. See footnotes below for changes in underlying foreign exchange rate and gold price assumptions:

	Year Ending December 31, 2016 (Estimated)
Mount Milligan Mine Copper and Gold <sup>(1)</sup>	
Concentrate production (000's dry tonnes)	125 - 135
Copper payable production (000's lb)	55,000 - 65,000
Gold payable production (000's oz) <sup>(1)</sup>	240 - 270
Unit cash cost - By-product (\$/payable lb copper produced): <sup>(2)</sup>	\$0.25 - \$0.70
Cash Capital Expenditures (\$ in millions, plus or minus 10%):	
Mount Milligan operations	\$5
Mount Milligan tailings dam	\$20
Mount Milligan secondary crusher <sup>(3)</sup>	\$47
Total capital expenditures	\$72

- (1) Estimates for cash costs and capital expenditures assume an average foreign exchange rate of US\$1.00 = C\$1.28 for 2016.
- (2) Assumes gold by-product credits at a weighted average gold price of approximately \$867/oz, which takes into account the \$435/oz under the streaming arrangement with Royal Gold ("Gold Stream Arrangement").
- (3) Excludes \$6.2 million in accruals as of December 31, 2015 that were paid in 2016.

See Item 1A of our 2015 Form 10-K for a discussion of risk factors relating to our production and cost guidance.

#### Non-GAAP Financial Measures

In addition to the condensed consolidated financial statements presented in accordance with US GAAP, management uses certain non-GAAP financial measures to assess the Company's operating performance for the reasons described further below. These measures do not have standard meanings prescribed by US GAAP and may not be comparable to similar measures presented by other companies. The presentation of these measures is not intended to be considered in isolation from, as a substitute for, or as superior to, the financial information prepared and presented in accordance with US GAAP. In addition, these non-GAAP measures have limitations in that they do not reflect all of the amounts associated with the results of operations as determined in accordance with US GAAP.

#### Adjusted Net (Loss) Income, Adjusted Net (Loss) Income Per Share&mdash;Basic and Diluted

Management of the Company uses adjusted net (loss) income and adjusted net (loss) income per share, basic and diluted, to evaluate the Company's operating performance and for planning and forecasting future business operations. The Company believes the use of these measures allows investors and analysts to compare results of the continuing operations of the Company to similar operating results of other mining companies, by excluding unusual or infrequent items that are considered non-core to its business.

Adjusted net (loss) income represents the (loss) income prepared in accordance with US GAAP, adjusted for significant non-cash items.

For the first three and six months of 2016 and 2015 and for the five quarters ended June 30, 2016, the significant items were the net gains and losses related to the impact of foreign exchange due primarily to intercompany notes and related tax effects. Additionally, for the fourth quarter of 2015, in connection with a change in its legal structure the Company also had a significant non-cash release of tax valuation allowances which were generated in prior years primarily as a result of asset impairments.

In connection with management's strategy to manage cash balances, fund its operations and provide future tax benefits, the Company may enter into intercompany loan arrangements. At times, the loans are denominated in currencies other than the measurement currency of one of the parties. US GAAP requires that notes that are intended to be repaid should not be considered a capital contribution, and, therefore, the foreign exchange fluctuations related to these loans impact net (loss) income each period. At each period end, management compares the exchange rate between the Canadian and US dollars to the exchange rate at the end of the prior reporting period. The difference between those rates is recorded as an unrealized gain or loss on the Condensed Consolidated Statements of Operations and Comprehensive (Loss) Income at each period end. Settlement of these intercompany loans results in realized foreign exchange gains or losses recorded on the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss). The loans between the parent company and its subsidiaries are the primary driver of our foreign exchange gains and losses, as discussed above, management does not consider gains or losses on foreign exchange in its evaluation of our financial performance. Management believes that presentation of our non-GAAP measures excluding these gains or losses provides useful information to the Company's investors regarding our financial condition and results of operations.

Adjusted net (loss) income per share (basic and diluted) is calculated using adjusted net (loss) income, as defined above, divided by the weighted-average basic and weighted-average diluted shares outstanding during the period as determined in accordance with US GAAP. If the adjustments to net loss on a US GAAP basis result in non-GAAP adjusted net income, management calculates weighted-average diluted shares outstanding in accordance with US GAAP and uses that to calculate adjusted net income per diluted share. If the adjustments to net income on a US GAAP basis result in non-GAAP adjusted net loss, management utilizes weighted-average basic shares outstanding to calculate adjusted net income per diluted share in accordance with US GAAP.

The following tables reconciles net (loss) income presented in accordance with US GAAP to the non-GAAP financial measures of adjusted net (loss) income and adjusted net (loss) income per share, basic and diluted, for the three and six months ended June 30, 2016 and 2015 and for the previous four quarters. All figures within the tables are unaudited and are presented in US\$ in millions, except shares and per share amounts.

#### Non-GAAP Reconciliation

	Three Months Ended June 30, Six Months Ended June 30,

<sup>(1)</sup> Included a foreign exchange gain of nil; a foreign exchange gain of \$1.2 million; foreign exchange losses of \$1.0 million and \$1.1 million and a foreign exchange gain of \$0.3 million presented in income and mining tax expense (benefit) in the Condensed Consolidated Statements of Operations and Comprehensive (Loss) Income for the three months ended June 30, 2016, March 31, 2016, December 31, 2015, September 30, 2015 and June 30, 2015, respectively.

#### Copper-Gold Operations - Unit Cash Cost and Average Realized Price per Payable Pound or Payable Ounce Sold

Unit cash cost on a by-product and co-product basis are considered key measures in evaluating operating performance in the Company's Copper-Gold operations, as well as measures of profitability and efficiency on a consolidated basis. Although, unit cash cost on a by-product and co-product basis are not measures of financial performance, do not have standardized meaning prescribed by US GAAP and may not be comparable to similar measures presented by other companies, management believes these non-GAAP measures provide useful supplemental information to investors.

Unit cash cost on a by-product and co-product basis represent the mining, milling, on-site general and administration, truck and rail transportation, warehousing, refining and treatment, and ocean freight and insurance costs; and exclude the effects of changes in inventory, other non-cash employee benefits, such as stock-based compensation, depreciation, depletion, amortization and accretion.

On a by-product basis, sales of by-product metals are deducted when computing cash costs in accordance

with the cash cost standard endorsed by the World Gold Council and, previously, the Gold Institute.

On a co-product basis, cash costs are allocated between copper and gold based on production. Copper production is stated in thousands of pounds. Gold production has been converted to thousands of copper equivalent (Cu eq.) pounds using the gold production for the periods presented, as well as the most recent quarterly average prices for copper and gold. The price used for copper is the most recent quarterly average of the Metals Bulletin Daily published price for LME settlement per tonne. The price used for gold is a weighted average of the most recent quarterly average of the Metals Bulletin Daily published prices for daily average London price per ounce adjusted for the fixed price established under the Gold Stream Arrangement (\$435 per oz).

The following tables provide a reconciliation of cash costs, unit cash costs, and operating expenses for Copper-Gold operations included in the Company's Condensed Consolidated Statements of Operations and Comprehensive (Loss) Income in the determination of net (loss) income for the three and six months ended June 30, 2016 and 2015 and the five quarters ended June 30, 2016.

	Three Months Ended		Six Months Ended	
Reconciliation to amounts reported below (US\$ in millions)	Jun 30 2016	Jun 30 2015	Jun 30 2016	Jun 30 2015

---

(1) Excluded refining and treatment charges.

(2) The three months ended March 31, 2016 and the six months ended June 30, 2016 included a \$1.5 million reduction related to five provisional invoices from 2015. The decrease resulted from a downward revision to the rate at which the deferred revenue liability resulting from the Gold Stream Arrangement was amortized. This rate is calculated based on the remaining deferred revenue liability and total ounces of refined gold owed to Royal Gold.

(3) Silver sales are reflected as a credit to operating costs.

(1) The six months ended June 30, 2016 reflect a \$1.5 million reduction related to five provisional invoices from 2015. The decrease resulted from a downward revision of \$27/oz. to \$20/oz. on the \$32 million of deferred revenue liability resulting from the Gold Stream Arrangement was amortized. This rate is calculated based on the remaining deferred revenue liability and total ounces of refined gold owed to Royal Gold.

#### Conference Call and Webcast

Thompson Creek will hold a conference call for analysts and investors to discuss its second quarter 2016 financial results on Tuesday, August 9, 2016, at 11:00 am Eastern Time.

To participate in the call, please dial 1 (647) 427-7450 or 1 (888) 231-8191. A live audio webcast of the conference call will be available at <http://bit.ly/29SuZKF> and [www.thompsoncreekmetals.com](http://www.thompsoncreekmetals.com).

An archived recording of the conference call will be available through August 16, 2016. To access the recording, dial 1 (416) 849-0833 or 1 (855) 859-2056 and enter replay code 50536918. The archived recording will also be available on the Thompson Creek website.

#### About Thompson Creek Metals Company Inc.

[Thompson Creek Metals Company Inc.](http://www.thompsoncreekmetals.com) is a North American mining company. The Company's principal operating property is its 100%-owned Mount Milligan Mine, an open-pit copper and gold mine and concentrator in British Columbia. The Company's molybdenum assets consist of its 100%-owned Thompson Creek Mine, an open-pit molybdenum mine and concentrator in Idaho, its 75% joint venture interest in the Endako Mine, an open-pit molybdenum mine, concentrator and roaster in British Columbia, and its Langeloth Metallurgical Facility in Pennsylvania. The Company's development projects are the Berg and IKE properties, both copper, molybdenum and silver exploration properties located in British Columbia. The Company's principal executive office is located in Denver, Colorado. More information is available at [www.thompsoncreekmetals.com](http://www.thompsoncreekmetals.com).

#### Cautionary Note Regarding Forward-Looking Statements

Certain statements in this release are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and applicable Canadian securities legislation, and are intended to be covered by the safe harbors provided by these regulations. All statements other than statements of historical fact set forth or incorporated herein by reference are forward-looking statements. These forward-looking statements may, in some cases, be identified by the use of terms such as "believe," "project," "expect," "anticipate," "estimate," "intend," "strategy," "future," "opportunity," "plan," "may," "should," "will," "would," "will be," "will continue," "will likely result," and similar expressions. Our forward-looking statements may include, without limitation, statements with respect to: future financial or operating performance of the Company or its subsidiaries and its projects; future liquidity; the proposed arrangement with [Centerra Gold Inc.](#), including, but not limited to, the timing, expectations and risks associated with the proposed arrangement; our ability to access financing arrangements and our ability to refinance or reduce debt on favorable terms or at all; future inventory, production, sales, payments from customers, cash costs, capital expenditures and exploration expenditures; future earnings and operating results; expected mining and concentrate grades and recoveries; estimates of mineral reserves and mineral resources, including estimated mine life and annual production; expectations regarding the optimization of Mount Milligan Mine and construction of a permanent secondary crushing circuit, including timing and cost of construction and the effects of secondary crushing; future concentrate shipment dates and shipment sizes; future operating plans and goals, including expected financial and operating results of the molybdenum business; expected costs, including any severance costs; personnel decisions, including reductions in work force; future copper, gold, and molybdenum prices; and future foreign exchange rates.

Where we express an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, our forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties, which may cause actual results to differ materially from future results expressed, projected or implied by those forward-looking statements. Important factors that could cause actual results and events to differ from those described in such forward-looking statements can be found in the section entitled "Risk Factors" in our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and other documents filed on EDGAR at [www.sec.gov](http://www.sec.gov) and on SEDAR at [www.sedar.com](http://www.sedar.com). Although we have attempted to identify those material factors that could cause actual results or events to differ from those described in such forward-looking statements, there may be other factors, currently unknown to us or deemed immaterial at the present time that could cause results or events to differ from those anticipated, estimated or intended. Many of these factors are beyond our ability to control or predict. Given these uncertainties, the reader is cautioned not to place undue reliance on our forward-looking statements. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise.
