

[California Resources Corp.](#) (NYSE:CRC) today announced that its tender offer was oversubscribed as of the Early Participation Time on August 12, 2016. Because the tender offer was oversubscribed, CRC will accept unsecured notes tendered prior to the Early Participation Time based on the Acceptance Priority Levels as provided in the Offer to Purchase (as defined below) and will not accept any notes tendered after the Early Participation Time. Due to the Acceptance Priority Levels, unsecured notes in Priority Level 2 will be accepted pro rata and secured notes in Priority Level 3 will not be accepted for purchase.

Todd Stevens, President and CEO, noted, "This successful cash tender for our bonds allows us to take another material step towards our deleveraging goals by reducing our outstanding debt by approximately \$625 million, net. With this transaction, we will have reduced our overall debt levels by more than \$1.3 billion from our post spin peak. As market conditions warrant, we will continue to pursue additional deleveraging opportunities."

Subject to the conditions set forth in the Offer to Purchase, holders who validly tendered notes at or prior to the Early Participation Time that were accepted for purchase will receive the "Full Consideration" set forth below, which includes the "Early Participation Premium" of \$50. In addition to the Full Consideration, CRC will pay in cash accrued and unpaid interest on notes accepted from the applicable last interest payment date to, but excluding, the date of early settlement.
