15.08.2016 | [Marketwired](#)

VANCOUVER, Aug. 15, 2016 - [Lowell Copper Ltd.](#) ("Lowell Copper") (TSX VENTURE:JDL), [Gold Mountain Mining Corporation](#) ("Gold Mountain") (TSX VENTURE:GUM) and [Anthem United Inc.](#) ("Anthem") (TSX VENTURE:AFY) are pleased to announce they have signed a definitive agreement (the "Arrangement Agreement") to complete a business combination, creating a new diversified gold and copper production and development company.

The new company will have a pre-financing market capitalization of approximately CDN\$74 million. In connection with the business combination, Lowell Copper will undertake a private placement financing of subscription receipts for gross proceeds of up to CDN\$40 million (the "Concurrent Financing", and, collectively with the Arrangement Agreement, the "Transaction").

Highlights of the Transaction

- Immediate Gold Production: The new company will have immediate exposure to gold production through milling operations in Peru;
- Growth Portfolio: A multi-asset development portfolio will provide an attractive organic growth pipeline;
- Reduced Risk: A strengthened treasury and diversified asset portfolio reduces the risk associated with single asset companies;
- Highly Experienced Team: The new company will have an established Board and Management with a strong track record of adding value and financial discipline:
 - Greg Smith will be Chief Executive Officer of the combined company.
 - The Board of Directors will include J. David Lowell, Catherine McLeod-Seltzer, Marcel de Groot and Jim O'Rourke
- Enhanced Capital Markets Profile: The new company will benefit from increased scale, access to capital, liquidity and market profile;
- Robust Platform: The new company will be well positioned to identify and execute on accretive opportunities; and
- Strong Shareholder Base: The new company will be supported by a strong shareholder base characterized by significant insider and institutional ownership.

Compelling Combination

The Transaction creates a financially strong, emerging gold-copper production and development company. Upon completion of the Transaction, the combined company will have:

- A majority interest in an operating industrial gold processing plant located in the Arequipa region of southern Peru authorized to process up to 350 tonnes of mineralized feed per day;
- Measured and indicated gold resources of 301,000 ounces and inferred resources of 263,000 ounces at the Elk Gold Project in southern British Columbia;
- Inferred resource of 195 million tonnes containing over 1.8 billion pounds of copper and 12 million pounds of molybdenum for a copper equivalent grade of 0.61% at the Warintza Project in Ecuador;
- A prospective Cu-Mo land package at the Ricardo Project in Chile; and
- Estimated cash, cash equivalents and marketable securities of approximately CDN\$5 million, pre-financing and net of debt.

Management and the Boards of Directors of all three companies believe the Transaction will provide the shareholders of each company with the opportunity to participate in a larger and financially strong company with a broader range of growth prospects, a more diversified asset base and an experienced management

team and board.

Mr. J. David Lowell, President and CEO of Lowell Copper, said: "This transaction represents an attractive opportunity for Lowell Copper to expand and diversify its asset base and allow its shareholders to benefit from being part of an emerging metals company with an experienced team and expanded portfolio. With a significant interest in the new company, Lowell Copper will maintain meaningful upside exposure to Warintza, while also accessing immediate gold production and near term gold development ounces."

Mr. Chris McLeod, President and CEO of Gold Mountain, said: "We are pleased to include our Elk gold project as part of the foundation for the new company. The proposed leadership have a track record of building high valued mining companies and we look forward to participating in what we expect to be substantial value creation going forward."

Mr. Greg Smith, President and CEO of Anthem, commented: "We are extremely pleased to team with Lowell Copper and Gold Mountain in the creation of a new gold-copper company. We will have the portfolio, scale and leadership team to execute on our long-term strategy to build a significant and profitable producing gold-copper company."
