

VANCOUVER, BC --(Marketwired - August 15, 2016) - [Comstock Metals Ltd.](#) (TSX VENTURE: CSL) ("Comstock" or the "Company") is pleased to announce certain officers and directors have been issued an aggregate of 1,630,000 options pursuant to the Company's option plan. Each option is exercisable into one common share at an exercise price of \$0.355 at any time on or before the fifth anniversary of its issuance, subject to a four-month hold period with all of the options vesting immediately. In addition, the Company announced today that all options issued since March 18, 2016 have been amended, subject to receipt of all required approvals, to vest immediately.

About Comstock Metals Ltd.

[Comstock Metals Ltd.](#) is a mineral exploration company. Its flagship 16,335 hectare QV Property is located in the White Gold district of the Yukon Territory, approximately 70 kilometres south of Dawson City and 44 kilometres northeast of the Coffee project of [Goldcorp Inc.](#), which it recently acquired through an acquisition of [Kaminak Gold Corp.](#) through a court approved plan of arrangement in a deal valued at C\$520 million at the time it was announced. To date, the Company has completed 3,400 metres of drilling in 17 drill holes which formed the basis for a maiden Inferred mineral resource totalling 4.4 million tonnes grading 1.65 g/t gold containing 230,000 ounces of gold at a 0.5 g/t gold cut-off (See Comstock July 8, 2014 News Release). The VG Deposit remains open in all directions and is proximal to other untested sub-parallel structures. The VG Zone has similar geology and style of mineralization to Kinross's Golden Saddle deposit, located 11 kilometres to the south. Additional promising targets exist on the QV Project, with potential for the discovery of significant intrusion related and/or orogenic gold mineralization. The infrastructure associated with the development of the Coffee project, including upgrading and completion of the mine access road, will benefit all projects in the district, including the QV Property.

Comstock has entered into definitive agreement in respect of a proposed purchase by Comstock of Select Sands' Preview SW gold project located in the La Ronge district of Saskatchewan and Select Sands' early-stage Old Cabin property in Ontario for 20 million common shares in the capital of Comstock (see August 11, 2016 News Release).

Comstock also owns early stage uranium claims in the Patterson Lake area of Saskatchewan and has optioned out its Corona property in Mexico (see January 28, 2016 News Release).

David A. Terry, Ph.D., P.Geo., a Qualified Person as defined by National Instrument 43-101, and an Officer and Director of Comstock, has reviewed and approved the scientific and technical disclosure in this news release.
