

VANCOUVER, British Columbia, Sept. 12, 2016 (GLOBE NEWSWIRE) -- [MX Gold Corp.](#) (TSX-V:MXL) (FSE:ODV) (OTCQX:MXLGF) (the "Company") is pleased to announce that the company will be presenting at Mines and Money Americas 2016 in Toronto, September 27 and 28, which will be held at the Ritz Carlton Grand Ballroom. This show is a well-known international conference that features many fund managers, individual high net worth investors and world-renowned speakers. This will be Mines and Money's first North American conference in their 13 year history.

Bert McPherson, President of [MX Gold Corp.](#) states, "We are excited to present the MX Gold story to institutional and high net worth investors for the first time, as the Company has never previously had the opportunity to let the investment community know about the Company's achievements to date and future plans, which include our flagship WillaMAX gold/silver/copper project. MX Gold has been very active at the WillaMax project over the first 8 months of the year and as such we are nearing our goal."

MX Gold recently announced the approval, by the Ministry of Environment, of the short-term water discharge permit to allow water currently discharging from the 1025 portal onto the surface to be routed directly to Aylwin Creek, enabling the company to prepare for geotechnical testwork in the proposed settling pond location.

About MX Gold

[MX Gold Corp.](#) is a junior mining company focused on the mining, exploration and development of advanced projects located in the Kootenay region of British Columbia. The Company's primary focus is its high-grade Willa gold and copper project located 12 kilometers south of Silverton, B.C. In 2015, [MX Gold Corp.](#) completed the accretive acquisition of the Willa project and the Max Molybdenum Mine and Mill Complex. This acquisition removed major costs and shortened timelines typically associated with mine project development with planned ore shipment from Willa to the Max Mill. The Willa mine is located 135 kilometers south of the Max Mill. [MX Gold Corp.](#) can also elect to reopen the Max Molybdenum mining operation once world Moly prices improve.

On behalf of the Board of Directors,

"Akash Patel"

Vice President and Director, [MX Gold Corp.](#)
