

TORONTO, Sept. 15, 2016 /CNW/ - [Orefinders Resources Inc.](#) ("Orefinders" or the "Company") (TSX.V: ORX) is pleased to announce that it has begun production activities on the Mirado Mine Stockpile Project.

Earthmoving, crushing, conveyor and loading equipment were mobilized onto site over the past week, and the Company can now confirm that crushing activities have begun. Orefinders' estimates a crushing production rate of approximately 1,500 to 2,000 tons per day. Thereafter the Company will begin shipment of the resource to the Westwood Mine and Mill after an appropriate amount of resource has been crushed as to not cause any delays with the trucking.

#### About Phase One of the Mirado Stockpile Project

Orefinders views Phase One as an opportunity to clean up the former mine site and to generate cash flow for Orefinders' ongoing exploration and development of the Mirado project. Phase One is a fully permitted and financed.

Phase One is a resource that was blasted and mined from the Mirado' open pit mine during its production during in the 1980's. Orefinders' has since completed a resource calculation on the Stockpiles which delineated an inferred resource of 20,742 tonnes at an average grade of 4.41 grams per tonne for a total of 2,939 contained gold ounces as disclosed in the Technical Report filed on Sedar on December 13, 2013. As per the toll milling agreement, announced in July 14, 2016 news release, Orefinders will deliver a minimum 25,000 tonnes of resource from the Mirado to the Westwood Gold Mine for processing and extraction of gold.
