

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Sep 19, 2016) - [Tintina Resources Inc.](#) (TSX VENTURE:TAU)(OTCQX:TINTF) ("Tintina" or the "Company") is pleased to announce that it has submitted responses to questions from the Montana Department of Environmental Quality ("DEQ") in regard to their Black Butte Copper underground Mine Operating Permit application ("MOP").

This thorough review of the MOP includes detailed studies by third party consultants which have been peer reviewed for completeness. A summary of the proposal can be found on our website [www.tintinaresources.com](http://www.tintinaresources.com) along with a 3D animation of the planned project showing what the site will look like before and during mining operations as well as after reclamation.

John Shanahan, CEO stated, "I want to thank the Montana Department of Environmental Quality for their profession and thorough approach. Our application is a much stronger document because of the excellent questions posed by the DEQ. We look forward to working with the department as they continue the review process through the Completeness and Compliance phase of permitting."

Jerry Zieg, VP of Exploration closed by stating, "This is where I grew up, so I am proud to be part of a project that protects traditional uses of our watershed, fits well in my community and safeguards the environment; all while providing tremendous economic opportunities for Central Montana. Our highly engineered plan and quality design is one that Montanans and the mining industry can be proud of."

About Tintina Resources Inc.

[Tintina Resources Inc.](#) is a growth company focused on the exploration, development, and mining of its 100% owned flagship property, the Black Butte Copper project in central Montana, USA.
