

Vancouver, British Columbia--(Newsfile Corp. - October 25, 2016) - [Sienna Resources Inc.](#) (TSXV: SIE) (FSE: A1XCQ0) (OTCBB: SNNAF) wishes to announce that Management has received confirmation that all its filings are in good standing with the State of Nevada. Now that all the paperwork is in good standing management is in a position to start the process of commencing operations on the Clayton Valley Deep Basin Lithium Brine Project.

President Jason Gigliotti will also be presenting the New Orleans Investment Conference October 26-29th held at the Hilton New Orleans Riverside 2 Poydras Street. The New Orleans Conference is one of the most important investment gathering of the year, and brings together many of the brightest, most successful analysts and investors. This year "O'Rourke, Grant, Krauthammer, Faber, Schiff, Moore, Altucher, Larson, Gartman, Casey, Rule" will be speaking at the show. Jason Gigliotti welcomes all shareholders and prospective shareholders to come speak directly with him.

Jason Gigliotti, President of [Sienna Resources Inc.](#) stated, "We are pleased to be moving forward on our flagship Clayton Valley Deep Basin Lithium Brine Project. Sienna's property is located in the deepest sections of the only basin that produces lithium from brine in Nevada providing Sienna with what we feel is a distinct advantage. When you consider that our neighbour, [Pure Energy Minerals Ltd.](#) (TSXV: PE) has just had more success drilling on their deepest drill program to date in this basin and ended in brine at depth bodes well regarding our planned future work program in the deepest sections of this basin."

We are also very fortunate to be able to engage GeoXplor who have the most intimate knowledge of Clayton Valley. The GeoXplor team have been instrumental with the development and discovery regarding the lithium brine deposit that [Pure Energy Minerals Ltd.](#) has, and we look forward to utilizing their experience and expertise to develop our "Clayton Valley Deep Basin Lithium Brine Project." GeoXplor has proven to be the preeminent Clayton Valley lithium brine discovery team. We are very excited to start up our program as Sienna is located in the deepest sections of the basin that holds the only lithium development in Nevada"

Sienna's "Clayton Valley Deep Basin Lithium Brine Project" is located directly between and bordering [Pure Energy Minerals Ltd.](#) (TSXV: PE) and [Lithium X Energy Corp.](#) (TSXV: LIX). The "Clayton Valley Deep Basin Lithium Brine Project" is located in parts of the deepest sections (refer to the map) of the only lithium brine basin with a producing operation in North America (Albemarle's (NYSE: ALB) Silver Peak Mine).
